The matter of the claim of Vanderburgh County against Henry J. Mercer in the sum of Eleven Thousand Nine Hundred Sixty-Eight Dollars (\$11,968.00) because of the defalcation of said Henry Mercer as Assessor of Pigeon Township, Vanderburgh County, Indiana, comes on to be heard and said Commissioners find that there is certain sums owing the County from Henry J. Mercer, and that the Maryland Casualty Company has paid certain sums to the County because of its obligation on a bond of said Henry J. Mercer or from any other person, firm or corporation liable therefor and that negotiations for the settlement of said claim ought to be had with Henry J. Mercer or with any other person, firm or corporation liable to the County, or suits for the collection thereof ought to be reimbursed for said amount, and that since the Maryland Casualty Company has paid certain amounts, an assignment ought to be made by the County to the Maryland Casualty Company of a part of the County's interest in said claim.

Now therefore it is ordered by the Board that Lorin Kiely and Emra H. Ireland, attorneys, be empowered and employed to negotiate a settlement of said claim or claims against Henry J. Mercer, his estate, or with any other person, firm or corporation liable to the County because of said defalcation, or to bring a suit or suits against said Henry J. Mercer or other persons, firms, or corporations liable therefore, for any amount due the County, and that assignment be made of a part of the County's interest in said claim to Maryland Casualty Company, and that Maryland Casualty Company pay its pro-rata share of the costs incurred in the event suit is brought.

It is now ordered that said assignment, when executed, and this order be spread of record.

The Honorable Board of County Commissioners
of Vanderburgh County,

Gentlemen:-

I hereby recommend that the plans for drainage at Station 0-0 on the St. Joseph Avenue Road #257, be changed as the plan is not practical. I suggest that a concrete retaining wall fifteen (15') feet long parallel with the road be built and a cut off wall be built at right angles at the end of said retaining wall. This change will be for the benefit of the public and there will be no extra cost.

Respectfully submitted,

WHEREAS it has heretofore been determined and ordered by the Board of Commissioners of the County of Vanderburgh that in the opinion of the Board of

(In this connection, it is suggested to the County Surveyor aforesaid that he use, insofar as the same are applicable, the surveys and estimates and the plans and specifications for a so-called "Steel" Bridge heretofore prepared by Rudolph Meisinger and filed in this matter.)

AND BE IT FURTHER RESOLVED that the said County Surveyor shall, with all convenient haste, proceed in this matter and file such surveys and estimates and such plans and specifications in the office of the County Auditor, and shall proceed herein as required by law.

AND BE IT FURTHER RESOLVED that all entries, orders and actions of the Board of Commissioners of the County of Vanderburgh heretofore made in this matter, and which orders, entries and actions are inconsistent with the provisions of this resolution, be, and the same are, either in whole or in part, as the case may be, hereby set aside, rescinded, cancelled and held for naught.

Re: Appropriation for Pigeon Creek Bridge at Franklin Street.

Comes now the Board of Commissioners of the County of Vanderburgh, State of Indiana in the above entitled cause and having been duly advised in the premises finds that an immediate emergency exists and that it is indispensibly necessary to construct a bridge over Pigeon Creek where Franklin Street in the City of Evansville, Indiana crosses said Creek.

And the Board of Commissioners finds that the duly elected and qualified engineer and surveyor, Mack Saunders with the assistance of E.L.Ericksen, a consulting engineer have made new surveys, and estimates and the Board of Commissioners of Vanderburgh County, Indiana, finds that the estimate costs of the construction and building of said bridge will be (\$130,000.00) One Hundred Thirty Thousand Dollars.

The Board of Commissioners further find that the appropriation and bond issue heretofore made for the expense of the construction of a bridge at said point designated, has by law reverted to the General Fund of said County, and that it is necessary for the County Council of Vanderburgh County, Indiana to reappropriate the money for the construction of said bridge, including all incidental expenses connected therewith. The Board of Commissioners now sign a request and file the same in the office of the Auditor of said county for an appropriation to pay for the construction of said bridge, including all incidental expenses thereof in the sum of One Hundred Forty Thousand (\$140,000.00) Dollars.

And the Board of Commissioners of the County of Vanderburgh, State of Indiana further find that the County Auditor should call the Vanderburgh County Council in special session to make an appropriation in the sum of One Hundred Forty Thousand Dollars to pay for the construction of said bridge including all incidental expenses connected therewith.

WHEREFORE it is ordered by the Board of Commissioners of the County of Vanderburgh, Indiana, that an emergency and indispensable necessity exists for the expenditure of One Hundred Forty Thousand (\$140,000.00) Dollars for the construction of a bridge, including all incidental expenses connected therewith, over Pigeon Creek at the point designated above and that there are no funds out of which the same can be paid, and now the Auditor of Vanderburgh County, Indiana is now

Re: Hahn Bridge.

The Honorable Board of County Commissioners
of Vanderburgh County, Indiana.

Gentlemen:

I recommend and authorize that the Hahn Bridge in Union Township, now being constructed by Coulson & Reininga, be lowered at least eighteen (18") inches. This will save the County a great deal of money on making the embankment.

The abutment already finished should be taken down eighteen (18") inches. The work of cutting the abutment down will offset the material to be left out of the abutment not yet finished.

Respectfully,
(signed) W. Mack Saunders
County Surveyor

I hereby agree to cut eighteen (18") inches off the abutment constructed by me and hereby lower the Hahn Bridge eighteen (18") inches at no extra cost to the County and no deductions allowed.

(Signed) Coulson & Reininga

The Board of County Commissioners hereby agree to the foregoing recommendations.

Re: L. &N. R.R.Co. Switch

To the Board of County Commissioners of Vanderburgh County, Indiana:

Your petitioner, the Louisville & Nashville Railroad Company, respectfully shows to this Board that it is now constructing a double track railroad bridge across the Ohio River and practically alongside its present bridge at or near Henderson, Kentucky. That in the handling of material to the Indiana side for the construction of this bridge your petitioner desires to lay a new track or side track upon its right of way from near Rahms to a point near the Ohio River. That this track will cross at grade a certain highway of Vanderburgh County commonly called the Newman Public Road. That the location of said track and crossing is shown upon the blue print attached hereto and make a part hereof.

Your petitioner further represents that where said side track crosses said highway, it will of its own expense remove the surface to a width of about nine feet and will construct and maintain its track across said public highway at full width and with its rail even or level with the top of the highway and the space between the rails fill with proper material and as shown on blue print. That it will construct and maintain this crossing so as not to impede travel and that it will remove said crossing and replace said highway in its former condition at its expense when said bridge across the Ohio River is completed and when your petitioner has no further need of this temporary track in the construction of said bridge. Your petitioner will so construct said crossing that it will not impede travel at any time.

WHEREFORE, your petitioner prays that its petition be granted and its plans approved.

Re: Willow Drive

The Honorable Board of Commissioners
of Vanderburgh County, Indiana.

Gentlemen:

If the plans made by the former County Surveyor on Willow Drive were followed as to grade, it would ruin the property on the road from Slaughter Avenue to Franklin Street. Sewers and sidewalks are in at all the cross streets and the grade on which the contract was let will raise the street as much as fifteen (15) inches above the sidewalks. The property is built up and it would be a crime to put the people who built there with the understanding that the sidewalks were near grade, to such a disadvantage.

There would be a distance of twenty (20') feet between their property line and the curb and open ditches would have to be maintained between the street and property line.

I hereby recommend that a grade be laid that will fit the property. I don't know how this will be handled, but I cannot conscientiously serve your honorable Board and the taxpayers affected by staking out said projects according to said plan.

Respectfully submitted,

W. Mack Saunders
County Surveyor.

Auditor of Vanderburgh County,
Evansville, Indiana.

Dear Sir:

Pursuant to the request of the Board of Commissioners, I am enclosing an entry which the Board instructed me to draw up this morning for your file, regarding the improvement of North Willow Road.

As I said this morning, I don't think the law contemplates any change in the plans and specifications on a road. However there should be some relief where a mistake has been made.

It is advisable to have this extra compensation approved by the State Board of Accounts before the money is paid out. This does not prevent a taxpayer of Pigeon Township from objecting to the claim, but it does save you embarrassment and trouble in the event the State Board of Accounts object to it. I think they will approve it providing they think the township is getting its money's worth for the extra work.

Trusting this entry covers the proposition, I am,

Very truly yours,

Arthur C. Stone.

Re: Painting of Bridges.

Bridge recommendations made by Saunders.

TO THE HONORABLE BOARD OF COMMISSIONERS
OF VANDERBURGH COUNTY, INDIANA.

In passing over numerous bridges in this county I have observed that many of them are sadly in need of paint and maintenance.

Vanderburgh County has an enormous amount of money invested in its bridges. This investment should be guarded and protected so that the full value thereof may be realized by the taxpayers who paid for them.

I have observed many of these bridges with practically no paint on them and the rusting of the steel is sooner or later going to make it necessary that they be replaced, unless they are protected from the elements with proper paint.

As County Surveyor, I respectfully ask the consideration of your Honorable Board of ways and means to properly protect these bridges by painting and other necessary maintenance, as I feel painting and maintenance when needed will greatly prolong the life of our bridges and a consequent saving of a vast amount of money to the taxpayers.

If this work is undertaken by your Honorable Board I suggest that all steel and other surface to be painted be thoroughly cleaned before painting and that someone be placed in charge of this work who knows paint and is qualified to determine whether any of the steel needs replacement and who can make such replacements whenever needed. May I further suggest if this work is undertaken that this is the most favorable time of the year to do so in order that the best results may be obtained.

Respectfully submitted,

W. Mack Saunders
County Surveyor.

The Board orders the engineer to make a survey and report cost of painting bridges.

STATE OF INDIANA)
VANDERBURGH COUNTY) SS:

In the matter of the petition of J.S. Baker, et al, for the improvement of Olmsted Avenue, a highway in Pigeon Township; total bond issue \$14,200.00.

TO THE HONORABLE STATE BOARD OF TAX COMMISSIONERS, INDIANAPOLIS, INDIANA:-

The undersigned, Board of Commissioners of the County of Vanderburgh, respectfully petition your Honorable Board that the undersigned be granted authority to issue bonds in the above amount to pay for the construction of the above entitled road, and in support thereof cite the following facts:

1. Total issue of bonds \$14,200.00, bearing interest at the rate of four and one-half per cent; said bonds maturing semi-annually over a period of ten years.

2. Said bonds are to be issued under what is known as the Three Mile Road Law, and to be an indebtedness of Pigeon Township, Vanderburgh County, Indiana, and is for the improvement of a highway most of which is located outside the City Limits of Evansville, Indiana; along a part of said highway the City Limits runs in the center of the street. The reason for the issuing of these bonds is that there is no law under which the improvement can be made; that this improvement is located in a rapidly developing section of the community, and on account of the unemployment situation as well as the importance of the highway, also on account of the cheapness the work can be procured, the original estimated cost on said highway being \$25,295.50, and the contract price being much less, bonds should be authorized to be issued at once.

3. The net assessed valuation of Pigeon Township, Vanderburgh County, is \$128,415,370.00, and the total amount of the indebtedness of Pigeon Township, for highways, including this issue is \$_____.

4. Following is a notice to taxpayers of determination to issue bonds, the last date of publication was March 23, 1931:

5. Contract for the construction of the above entitled improvement was awarded to the Globe Construction Company on the 20th day of July, 1931, for the amount of its bid, to-wit:- \$12,877.40. The names of the other bidders and the amount bid by each is as follows:-

Hanson Bros. Inc. \$15,288.00
Sweet & Wright 13,517.70

6. That there is no litigation pending or threatened relating to the above bond issue.

Re: Appropriation for Franklin Street Bridge

Comes now the Board of Commissioners of the County of Vanderburgh, State of Indiana, in the above entitled cause, and having been duly advised in the premises finds that an immediate emergency exists, and that it is indispensably necessary to construct a bridge over Pigeon Creek where Franklin Street in the City of Evansville, Indiana crosses said Creek.

And the Board of Commissioners finds that the duly elected and qualified engineer and surveyor, Mack Saunders, with the assistance of E.L. Ericksen, consulting engineer, has made new surveys and estimates, and the Board of Commissioners of Vanderburgh County, Indiana, finds that the estimated cost of the construction and building of said bridge will be \$130,000.00.

The Board of Commissioners further finds that the appropriation and proceeds derived from the bond issue heretofore made for the expense of the construction of a bridge at said point designated has by law reverted to the general fund of said county, and that it is necessary for the County Council of Vanderburgh County, Indiana to re-appropriate the money for the construction of said bridge, including all incidental expenses connected therewith. The Board of Commissioners further finds that there is doubt as to the legality of the appropriation or attempted appropriation of funds for this matter by virtue of certain action heretofore taken by the County Council at a special meeting thereof held on the 2nd day of July, 1931. The Board of Commissioners now signs a request and files the same in the office of the Auditor of said county for an appropriation to pay for the construction of said bridge, including all incidental expenses thereof, in the sum of \$140,000.00.

And the Board of Commissioners of the County of Vanderburgh, State of Indiana, further finds that the County Auditor should call the Vanderburgh County Council in special session to make an appropriation in the sum of \$140,000.00 to pay for the construction of said bridge, including all incidental expenses connected therewith.

WHEREFORE, it is ordered by the Board of Commissioners of the County of Vanderburgh, Indiana, that an emergency and indispensable necessity exists for the expenditure of \$140,000.00 for the construction of a bridge, including all incidental expenses connected therewith, over Pigeon Creek at the point designated above,

Board of Commissioners, Vanderburgh County, Indiana, July 1931

above, and that there are no funds out of which the same can be paid, and now the Auditor of Vanderburgh County, Indiana, is ordered to call a special session of the County Council of Vanderburgh County, Indiana for the purpose of appropriating money for the construction of a bridge across Pigeon Creek at the point designated above, including all incidental expense connected therewith.

Re: Appropriation for Coliseum Building.

In Re: Bond issue for Vanderburgh
County Memorial Coliseum.

The work to be done and the equipment to be furnished will be as follows:

Building partition walls, raising roof over stage, putting in new ceiling, rewiring, new floor and other remodelling; also seats, stage equipment and other equipment.

And that the costs of the remodelling, equipping the said above described building, including all incidental expenses connected therewith will be Sixty-five Thousand Dollars. (\$65,000.00).

And the Board of Commissioners of the County of Vanderburgh, State of Indiana further finds that there are no funds out of which the same can be met and that there are no existing levies out of which the same can be paid and that there are no existing levies which will produce sufficient funds to pay for said work.

And the Board of Commissioners of the County of Vanderburgh, Indiana further find that the County Auditor should call the Vanderburgh County Council of Vanderburgh County, Indiana, into special session to issue bonds and to make an appropriation for the said work and equipment above mentioned.

Wherefore, it is ordered and determined by the Board of Commissioners of the County of Vanderburgh, Indiana, that an emergency and indispensable necessity now exists for the expenditure of Sixty-five Thousand Dollars (\$65,000.00) and that there are no funds out of which the same can be met and no existing levies out of which the same can be paid, and now the Auditor of Vanderburgh County, Indiana is now ordered to call a special session of the Vanderburgh County

Council of Vanderburgh County, Indiana for the purpose of appropriating money for the above described work and equipping of said building and for the purpose of issuing bonds to pay for said work.

The Honorable Board of County Commissioners
of Vanderburgh County, Indiana.

Gentlemen:

I hereby recommend and approve a change in the line of Ohio Street in front of the platted Real Estate between St. Joseph Avenue and 8th Avenue.

If constructed according to the plans of the former County Surveyor, every tree along Ohio Street would have to be removed.

There was no estimate or bid on the removal of trees and it would be foolishness to remove them.

By shifting the center line south three (3) feet, the same width road can be obtained with no difference in quantities.

Board of County Commissioners

Gentlemen:

Mrs. Laura Sibera has placed a claim with me for collection against Vanderburgh County, by reason of her getting crippled at the Boehne Camp; she was an attendant there at the Camp and had completed her duties and started out at the side door and as the porch to which the door opens was so small that she missed the top step and fell and broke her hip, she was laid up in bed for about two months or more and is now hardly able to walk on crutches and will always be a cripple. This occurred more than a year ago.

She tells me there has been others fell off of this small porch and hurt themselves.

If you have any disposition to compromise the matter I will be glad to take the matter up with you or your attorney.

Mrs. Sibera feels that she has been injured for life and is entitled to damage in this matter.

Re: First Avenue

Comes now Mack Saunders, engineer and files report on First Avenue.

Board of Commissioners, Vanderburgh County, Indiana, September 1931

THE HONORABLE BOARD OF COUNTY COMMISSIONERS
OF VANDERBURGH COUNTY, INDIANA

Gentlemen:

I hereby submit to your Honorable Board estimate of the extra binder used on First Avenue, also tickets for all loads of binder delivered on the job.

The extra binder was used on the old brick resurfacing. In order to make a good street, the bricks that were too high had to be taken out and the holes filled with binder. It was impossible to lay the street without taking the bricks out that were high. In so doing, an excellent street was constructed, which meets with the approval of the public in general.

Estimates are as follows:

	Loads	Boxes	Weight-lbs.
August 25	33	231	256410
" 26	37	259	287490
" 27	5	35	38850
" 28	24	168	186480
" 29	38	266	295260

Total	137	959	1064490 lbs.
		or	532.245 tons
Less tons in estimate			378. tons

Tons in estimate	154.245 tons extra used as ordered.
------------------	-------------------------------------

One (1) inch Binder	556000
Extra in estimate	<u>200000</u>
	756000 or
	378 tons

Respectfully submitted,

W. Mack Saunders
County Surveyor of Vanderburgh
County

On motion the Board approves recommendations.

Re: Ohio Street

Comes now Mack Saunders and files report on Ohio Street. The Auditor is instructed to see the proper City Officials and ask them to do this work.

THE HONORABLE BOARD OF COUNTY COMMISSIONERS
OF VANDERBURGH COUNTY, INDIANA

Gentlemen:

I wish to call your attention to the progress made in the improvement of Ohio Street. All the base for asphalt is in except about 300 feet at the L.&N. freight house and at the Ohio Street Bridge. The asphalt has been laid to Wabash Avenue.

There is a gap in the concrete about 50 feet on each side of the Ohio Street bridge, left so the water and gas pipes can be hung under the bridge. As yet nothing has been done toward moving them. The specifications and plans call for this to be done.

New flooring for the bridge is on the ground and cannot be placed until something is done about the pipes.

The street should be finished in about two weeks, but it will be impossible to open it until the bridge is taken care of.

Respectfully submitted,

W. Mack Saunders
County Surveyor Vanderburgh County

Re: Franklin Street Bridge

The Auditor submits report of State Highway Commission on Franklin Street Bridge, showing approval.

Mr. Edward D. Koenemann,
County Auditor,
Vanderburgh County,
Evansville, Indiana.

Dear Sir:

We have examined the plans and specifications for the proposed steel truss bridge over Pigeon Creek at Franklin Street, Evansville, Vanderburgh County, Indiana, in accordance with the application of the Commissioners of Vanderburgh County, for approval, recommendation and assistance, for approval of plans and specifications and for inspection of construction, dated June 22, 1931.

Two blue print copies of these plans and specifications were handed by you to our Mr. Kellam to-day and both the plans and specifications show the adoption and approval of the Board of Commissioners over their signatures dated Sept. 14, 1931 and your certificate that they are true and correct copies of those on file in your office.

The specifications consist of a title sheet, itemized proposed sheet, sixty-one numbered pages of specifications and four sheets of a table of contents.

The plans consist of sixteen numbered sheets as follows:

- Sheet No. 1 Index & Title Sheet;
- Sheet No. 2 Profile & General Elevation;
- Sheet No. 3 Floor Plan;
- Sheet No. 4 Stress Sheet;
- Sheet No. 5 Abutment;
- Sheet No. 6 Half Section & Cap Details;
- Sheet No. 7 Typical Framing Details;
- Sheet No. 8 Typical Framing Details;
- Sheet No. 9 Truss Details;
- Sheet No. 10 Truss Details;
- Sheet No. 11 Truss Details;
- Sheet No. 12 Truss Details;
- Sheet No. 13 Truss Details;
- Sheet No. 14 Truss Details;
- Sheet No. 15 Concrete Railing;
- Sheet No. 16 Quantity Estimate & Bracing.

No investigation has been made by us and no other authentic information is contained in our file as to the subsoil conditions for the abutments or the waterway requirements for this structure. The structure as proposed, however, does not encroach upon the present effective waterway and does not materially change the load to be carried by the foundations of the existing piers from that previously carried. It appears that the construction contemplated in these plans does not require the use or removal of work previously done by the National Concrete Co. at this site. We have not verified the accuracy of the field measurements involved in the plans nor the arrangements or agreements with public utilities using the structure, our examination covering only structural and general features of the design.

Attention is called to the fact that the lower portions of the steel work are below a level frequently reached by backwater from the Ohio River and that adequate provisions for inspection, cleaning, and maintenance of these parts are essential to the durability and efficiency of the structure.

We have checked the plans and specifications against those which ~~we~~ have been checked and corrected in our office as the details were completed, and find them satisfactory as contract plans and specifications.

This structure is designed and detailed for cantilever erection and different stresses will be set up in the steel work during erection than will exist after the structure is completed. These stresses will vary with the scheme of erection. For this reason the shop details and erection scheme and program have a vital bearing on the safety and adequacy of the design and our approval of the plans and specifications is subject to our subsequent approval of the shop details and erection drawings and program.

Board of Commissioners, Vanderburgh County, Indiana, September 1931

We are returning herewith one set of the specifications and one set of the plans which have been marked with our approval. The other copy of the plans and specifications is being retained for our permanent file.

Since the June 22, 1931 application and the later September 14, 1931 application of the County Commissioners include inspection of the work of construction, we wish that you would keep us advised of the progress of this project and notify us when and to whom the contract is awarded and also give us at least 10 days notice of the date on which an inspector will be required for this work. For the inspection we will also require three additional certified copies of the specifications and three additional certified set of the plans to be sent to us before the work starts.

Very truly,

Wm. J. Titus,
Chief Engineer.

Re: Gasoline Tax Money

Following is a letter received from the State Board of Accounts:

" Replying to your favor of the 1st inst., we are not aware of any statute which authorizes the Board of County Commissioners to construct a street within the corporate limits of a city or town, even with the consent of the city or town and pay for such construction work out of the county road fund.

As we understand the statute, only streets within a city or town which have been improved by the County, under some law authorizing same, can be maintained and repaired at expense of the County gravel road repair fund. Provision for this is made in Section 8513 Burns' R.S. 1926, Acts of 1923, page 67.

It may be that the Gasoline license fees received by the County can be used for the purpose referred to in your letter, provided of course, that the total amount received by the County has not already been appropriated for other purposes.

The gasoline license fees can be used for the construction of any public highway in the County.

Very truly yours,

Lawrence F. Orr,
State Examiner.

Re: Franklin Street Bridge

Comes now Mack Saunders, County Surveyor and recommends that the Franklin Street Bridge be closed, as per letter-

"After thoroughly reinvestigating the Franklin Street Bridge, I am of the opinion that the present structure should be closed to all traffic at once. It is impossible to keep the bridge open to traffic while building the new one. The old abutments will have to be taken down 19 feet. This should leave the old bridge up in the air with the construction joint within a couple of feet of the shoes of the old bridge. By taking about 450 tons of stone off the north side of the old abutment for construction of the new bridge, the south side supporting the old half bridge would be a great deal heavier than the north side. This may cause settling of the south side of the abutment. Also, when the approaches on the north side are torn away, it will take some of the lateral support away from the remaining half of the bridge. Also, the beams under the approaches are practically eaten up with rust and the bridge should be closed whether a new bridge was being built or not.

If the old bridge were removed, it would hasten the opening of the new bridge at least sixty days.

Knowing that it may inconvenience some to close Frankling Street, yet, it is imperative that your Honorable Board order it closed for the protection of the lives of not only the people of Vanderburgh County and the men working on the new bridge, but of the State and Nation who may use this highway. "

On motion the Board set date for hearing, Thursday, November 12, 1931, 2 P.M. and the Auditor is instructed to notify City of Evansville, the Public Utility Company, the West Side Nut Club and the contractor.

Re: Frank Fowler, Architect for
Remodeling of Coliseum.

Comes now Frank Fowler, Architect and files his recommendation, as follows-

Board of County Commissioners,
Vanderburgh County,

In regard to the bids received to-day for the remodeling of the Coliseum, I offer the following suggestions as a means of awarding the contracts legally. In other words, staying within the \$50,000.00, the advertised estimated cost.

Long & Smith submitted the lowest bid which was \$49,980.00. The M.J. Hoffman Construction Company, the second lowest bid which was \$54,506.00, making a difference of \$4,526.00, in favor of Long and Smith.

In asking for proposals we requested a number of alternates wherein the contractors stated the amounts they would deduct for various items which could if necessary be omitted. Using all of the deductions would reduce Long & Smith's bid to \$44,443.00. Since opening the bids I have conferred with Long and Smith and by checking through their estimate sheets, find that there is an additional possible saving of \$2296.58, in event the new Auditorium floor is omitted. This omission can be made without in any way interfering with the other proposed alterations and this floor could be installed at some later date without maring or altering any other work. This change would bring Long & Smith's figure to \$41,254.42.

The lowest electrical bid was submitted by the Evansville Electrical Service Company and with the deductions asked for their bid was reduced from \$10,897.00 to \$9,657.00. A further deduction can be made if we reuse the present Auditorium ceiling fixtures. This would mean a saving of \$541.93, reducing their bid to \$9,115.07.

The lowest heating and plumbing bid was submitted by the Wahn-siedler Company for \$4,746.00. In event that no changes are made in the present dressing rooms below the stage under this contract, all plumbing work would be eliminated, but some additional radiation would be required on the stage. This would cost approximately \$700.00. This would make a total of \$51,069.42.

It may be possible by going through the general contractor's estimates with him to find a few items on which some additional saving could be made.

(Signed) Frank E. Fowler

Re: Dressing on Bridge Flooring

The Honorable Board of County Commissioners of Vanderburgh County, Indiana,

Gentlemen:

I understand that the Highway Superintendent is intending to put asphalt or tar on the laminated Bridge flooring recently laid on some of the Bridges.

This would be a mistake as the floors are designed to be used on both sides and the wood already has all the creosote in it that it needs and anything on top of the floor would ruin it.

I suggest that your Honorable Board order the Superintendent not to put any preparation on those kind of floors.

Respectfully yours,

Joseph Gehringer of the Public Utilities Company also protested, stating that he believed this construction could be done as per plans and specifications.

Engineer Mack Saunders and Edgar Traylor of the Globe Construction Company spoke in favor of closing the Bridge.

(Copy of letter from the Globe Construction Company)

"As indicated in our letter of November 9, we are ready to begin operations at the Franklin Street Bridge for which we have a contract with your Board.

We have made a careful study of the plan and specifications and of the present condition of the old structure.

It is our opinion that the plan and specifications cannot be adhered to in keeping the south half of the old bridge open to traffic while the north half is being constructed. This opinion is based upon the fact that we must place a construction joint in concrete masonry both in the abutment and in the caps on the old piers very close to the shoes on which the old structure now rests. The old stone piers must be taken down a total of nineteen (19) feet, and they now depend upon their strength while keyed together in the entire mass, and as part of these abutments are taken away, we feel that it will be impossible to support the remaining part of the structure.

The hazard to the public, in our opinion, is too great and we are not willing to take this responsibility.

We are also in position to arrange for a final completion sixty to ninety days earlier if the bridge is built in its entirety rather than to build half at a time."

The Board decides to take this matter under advisement for further instructions and advice.

Re: Servel Parking Space

Mr. Edw. Koene mann
County Auditor,
Evansville, Ind.

Dear Mr. Koene mann:

We appreciate very much your cooperation in assisting us in leveling off some ground to get additional parking space for our employe's cars. It is understood that the expense involved for the operator and the gasoline consumed will be borne by us.

The condition on Franklin Street is a decided hazard from a traffic standpoint due to our having so many employes parking their cars on both sides of the street and it has been recommended by the City Traffic Department and the Board of Safety that we take steps to remedy this condition. The plan we have worked out and the equipment to be used in leveling off the lot will take care of this nicely.

Yours very truly,

Board of Commissioners, Vanderburgh County, Indiana, January 1932.

Re: Franklin Street Bridge

County Attorney, James F. Ensle, now files opinion and statement of facts on Franklin Street Bridge, to-wit:

BOARD OF COMMISSIONERS

OF THE COUNTY OF VANDERBURGH

Re: Franklin Street Bridge

FACTS:

The Globe Construction Company has contracted with the Board of Commissioners to construct a bridge across Pigeon Creek at Franklin Street, according to certain plans and specifications. The County Engineer, named in said plans and specifications, as director and arbiter of all misunderstandings arising from conflicting interpretations of certain plans, has directed the Contractor to discontinue taking rock off the old abutments until further notice, and has notified the Board that the structure of the old Franklin Street Bridge, now standing, is unsafe for traffic.

As I understand it, the Board desires to know, in the event the present Franklin Street Bridge should fall, causing damage, would the County be liable for such damage, and in answer to this query, I advise that the County would not be liable.

I understand further that the Engineer and the Board, and probably the Contractor and the representatives of the Public Utilities Company, desire a legal interpretation of the plans and specifications covering the situation at the present time.

The plans and specifications provide that the Contractor shall first construct the north half of said bridge and then the south half, and that during the time of the construction of the north half, he shall not interfere with traffic on the south portion until the north portion is ready for traffic. A reading of the plans and specifications in this respect will show that it was assumed by all interested parties that the south portion of the bridge was at that time, and would be, safe for traffic. The Engineer now reports that the south portion is absolutely unsafe for traffic, and in determining what the Board should do upon this question, I wish to suggest first that what should be done now is a question for the Engineer to determine.

The first paragraph of Section 39 of the plans and specifications is as follows:- "All traffic arrangements and guidance of traffic during construction shall be subject to the approval and direction of the Engineer." In advising the Engineer as to what his duties are, and in advising the Board as to what it should do, I must assume that the Engineer is both competent and honest. I think the Board must make the same assumption. The Engineer has advised me that this bridge may stand five minutes and may stand five months, but that it is liable to fall at any time. The duty of the Engineer, entertaining these views, it seems to me, is very plain. He should, this morning, without delay, close Franklin Street Bridge against any further traffic.

The plans and specifications further provide, in Section 34, that "The Contractor in conjunction with the Engineer and representatives of the utility owners shall lay out a construction program for the entire project which will cause a minimum of inconvenience to the public and all other parties concerned, and which will provide passage for pedestrians, street cars, and two lanes of vehicular traffic at all times. He shall provide approved board walks and foot bridges for pedestrians."

My advice to the Board at this time is, that so long as Mr. Saunders is engineer on this job, it must rely upon his statements as to the engineering facts connected therewith. I do not see that the Board is called upon to take any particular action at this time. My advice to the Engineer is that he close the bridge to traffic immediately, and that he then immediately summon representatives of the Contractor and of the Public Utilities Company to a conference to lay out a construction program under the provisions of Section 34 of the plans and specifications of the contract.

RESPECTFULLY SUBMITTED,

James F. Ensle

County Attorney.

Dated January 7, 1932.

Re: Franklin Street Bridge

The County Auditor now files with the Board a communication from W. J. Titus, Chief Engineer of the Indiana State Highway Commission, in which he states that said Franklin Street Bridge is unsafe for travel and that immediate steps should be taken to render it safe. (Letter on file in the County Auditor's Office)

Re: Franklin Street Bridge

ENTRY

Comes now Mack Saunders, County Engineer and engineer in charge of the Franklin Street Bridge, and files with the Board his written opinion that the south portion of said bridge, and the only portion now standing, is unsafe for traffic, and also reports to the Board that he has ordered the Contractor to discontinue taking rocks off the old abutment until the meaning of the specifications and contract are made clear, or until further notice.

And comes now James F. Ensle, County Attorney, and, as such County Auditor, advises the Board that it is the duty of the Engineer, entertaining the belief that said bridge is unsafe for traffic, immediately to close the same for traffic, and further advises the Board that it is the duty of said Engineer immediately to call into conference with him representatives of the Contractor and of the utility owners for the purpose of laying out a construction program for the entire project under the provisions of Section 34 of the plans and specifications for said bridge.

And the Board, being duly advised, now approves the recommendations of said County Attorney and the Engineer is directed to proceed in accordance therewith.

Geringer and Daniel H. Ortmeyer, Vice-President, Engineer and Attorney, respectively, of the Southern Indiana Gas & Electric Company, and James F. Ensle, County Attorney; that at such meeting the question of closing the bridge under the order of County Engineer was discussed until 5:00 o'clock in the afternoon, at which time the conference was adjourned until 2:00 the following day, at which time there were present the same persons as listed above, except James F. Ensle and Edgar Traylor, and at which meeting the following agreements were had and the following program arranged:

1. It was agreed that W. Mack Saunders, County Engineer in charge of said construction had declared the remaining or south portion of the Franklin Street Bridge to be unsafe, and had for that reason condemned the same.

2. That it would take approximately as long to render said south portion safe as it would to construct the north portion, during which time it would be necessary to close said south portion to traffic.

3. It was the opinion of the County Engineer that it was impossible so to prop up or brace the south portion as to render the construction of the north portion safe while traffic was using the south portion.

4. That the following program was agreed upon:

(a) The south half should be closed for traffic at 12:00 o'clock of the evening of the day of the conference.

(b) The contractor would proceed immediately with all reasonable speed to construct the north half.

(c) The question as to whether the contractor was obligated under the plans and specifications and his contract to prop up and render safe the south portion of said bridge was not passed upon.

(d) The question of whether the County would be entitled to a rebate because of the fact that the Contractor was not required to prop up and render safe said old portion was not discussed.

(e) The Engineer directed the Contractor, immediately, to tear down the south half of said bridge.

Approved, this 25 day of January, 1932.

Comes now Walter Dreier, President of the Kiwanis Club and Harry Boyle, Architect, in person, and show to the Board that because of the number of children crossing Oak Summit Drive going from Mesker Park to Oak Summit Park, the peril of such crossing has been greatly enlarged and that such a crossing is extremely hazardous for children, and that for the safety of pedestrians and especially children, requires that an underpass crossing be constructed at such point, and said persons now show to the Board that certain funds have been collected for the construction of such underpass crossing, and request the Board of Commissioners to expend for such purpose, the sum of \$500.00,

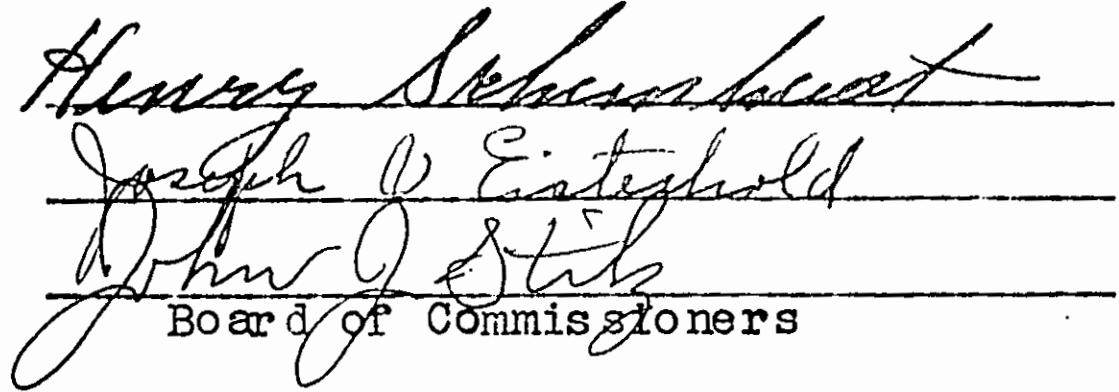

And the Board now being fully advised, finds that for the interest and safety of the tramping public, and especially children require that such underpass crossing be constructed and that the County should contribute the sum of \$500.00 to such project. Re: Franklin Street Bridge

Pursuant to notice by the County Auditor that in regard to conditions arising under the construction of the Franklin Street Bridge, an emergency existed for a special session of the Board of Commissioners of the County of Vanderburgh, the Board met in special session at its office in the Court House at 2:00 o'clock P.M., this 19th day of February, 1932, there being present Henry Schornhorst, Joseph V. Eisterhold and John J. Stilz, members of the Board, Edw. D. Koenemann, County Auditor, Edgar Traylor, President of the Glove Construction Co and DeWitt Q. Chappell, its attorney.

The purpose of the meeting was to determine whether the contractor should be authorized and directed to construct certain concrete work not specifically included in the plans and specifications of the Bridge across Pigeon Creek at Franklin Street.

And now, the County Surveyor, W. Mack Saunders, files with the Board, his written and signed statement as to the necessity for certain work to be done in the construction of said Bridge, which said statements are as follows:

February 19, 1932.

The Honorable Board of County Commissioners
of Vanderburgh County, Ind.

Gentlemen: In Re: Franklin Street Bridge

The west pier of the Franklin Street Bridge will have to have about eighteen (18) inches of extra concrete on top of the old stone to bring the seat level with the east side. There is a difference of approximately six (6) inches in the levels of the courses of stone in the old piers. On the east side the plan will work out O.K. with a four (4) foot cap, but on the west side with the stone course six (6) inches higher, another course of stone will have to be removed and filled up with the eighteen (18) inches of concrete. This will be approximately 52 yds of concrete at the unit price of \$9.75 Class E concrete a cu. yd.

W. Mack Saunders
County Engineer.

February 19, 1932.

The Honorable Board of County Commissioners
Vanderburgh County, Ind.

Gentlemen: In Re: Franklin Street Bridge

The condition of the soil, being wet on account of the recent high water, necessitates a footing 16 ft. wide and 15 inches deep and 83 feet long being placed under the west abutment of the Franklin Street Bridge. It would be impossible to keep the abutment from settling thereby throwing the anchors out of line. I recommend to your Honorable Board that this footing be laid as it is absolutely necessary. A note on the plans give us the right if any conditions are met in the excavation that need changing they may be changed. There will be approximately sixty-two (62) cu.yds, at unit price of \$9.75 per yd.

Respectfully yours,

W. Mack Saunders
County Surveyor."

And this matter, having been discussed, the following resolution was unanimously adopted:

RESOLVED by the Board of Commissioners of the County of Vanderburgh that because of the condition of the soil at the site of the Franklin Street Bridge, and because of the difference of the levels of the old stone in the last and west piers of said bridge, as set out in the surveyor's report, it is necessary that certain concrete work, as suggested by him, should be done and that the contractor, under the supervision of the engineer, be, and he is hereby, authorized and directed to construct a footing of re-enforced concrete sixteen (16) feet wide, fifteen (15") inches deep and eighty-three (83) feet long under the west abutment of the Franklin Street Bridge, and also a re-enforced eighteen (18") inch concrete cap on the west pier of the Franklin Street Bridge.

Re: Franklin Street Bridge

Comes now W. Mack Saunders, County Engineer and reports that by reason of the recent high water, the ground upon which it to be erected the south half of the east abutment has become so soft that it is necessary that there be constructed a re-enforced concrete footing for said south half twenty-nine (29") inches deep, forty-one feet, six inches (41'6") long and fourteen feet, eight inches (14'8") wide.

Also that the wing on the southwest corner should be changed and run parallel with the street and also raised to the top of the parapet wall.

The County Engineer estimates that the construction of the re-enforced concrete footing will require fifty-four and one-half (54.5) yards of concrete at a cost of Five Hundred Thirty-three and Thirty-seven Hundreds Dollars (\$533.37), and 11,068 lbs. of steel at a cost of Three Hundred Thirty-two Dollars and Four Cents (\$332.04), and the cost of the change of the wing will require four (4) cubic yards of concrete and approximately one Hundred (100) pounds of re-enforcing steel at a total cost of Forty-two (\$42.00) Dollars.

And now, the following resolution was unanimously adopted by the Board:

RESOLVED, that the contractor, Globe Construction Company, be directed to construct under the south half of the east abutment a footing of re-enforced concrete Forty-one feet, six inches (41'6") long, fourteen feet, eight inches (14'8") wide and twenty-nine (29") inches deep, and that the wing on the southwest corner be changed and run parallel with the street and also raised to the top of the parapet wall.

Re: Petition of County Treasurer

In the matter of an allowance)
to the County Treasurer for)
Deputy hire and other clerk hire)

Comes now Wm. H. Dress, the duly elected and qualified Treasurer of Vanderburgh County, Indiana, and files his verified claim, asking that he be allowed the sum of Five Thousand Dollars (\$5000.00) to hire and pay a sufficient number of deputies and clerks to properly and expeditiously carry on the work of the County Treasurer's office; and said County Treasurer also files a petition signed by more than one hundred freeholders of said county, asking that the Board of County Commissioners allow such claim, and said County Treasurer further shows, that the total assessed valuation of Vanderburgh County is more than one hundred million dollars, and that the present salary and compensation is insufficient to reasonably pay Wm.H. Dress, the present County Treasurer, and the deputies and clerks that are necessary for him to hire to properly conduct said office.

And the Board of Commissioners, after being duly advised in the premises, finds that said County Treasurer, Wm.H.Dress, filed his claim as provided by law, and has filed signed by more than one hundred freeholders of said Vanderburgh County, Indiana, asking that said increase for deputy and clerk hire be granted, and further find, that said petition is in due form and sufficient, and that the present allowance to the said County Treasurer is insufficient to reasonably pay him and the deputies and clerks that the work in said County Treasurer's office requires, and further find, that a reasonable fee for said County Treasurer for the purpose of paying deputies and necessary clerks, in a sufficient number to properly and expeditiously carry on the work of said Treasurer's office, would require the sum of Five Thousand Dollars (\$5000.00) and that said sum should be allowed to said County Treasurer.

WHEREFORE, it is ordered and adjudged by the Board of Commissioners of the County of Vanderburgh, that said sum of Five Thousand Dollars (\$5000.00) be, and the same is hereby allowed to the said County Treasurer, for collecting the 1931 taxes due and payable in the year of 1932. Said amount to be paid to said Treasurer in equal quarterly installments out of the Treasury of said County, during the year of 1932.

Board of County Commissioners

Board of Commissioners, Vanderburgh County, Indiana, February 1932

State of Indiana, Vanderburgh County, SS:

To the Hon. Board of Commissioners of said Vanderburgh County:

Your claimant, Wm. H. Dress, would respectfully show to your honorable Board, that he is the duly elected, qualified and acting Treasurer, of said Vanderburgh County. He would further show to your Honorable Board, that the assessed valuation of the Taxable property of said Vanderburgh County, Indiana, exceeds One Hundred Million Dollars (\$100,000,000.00), to-wit: One Hundred Sixty-Four Million Seven Hundred Thirty Thousand Forty Dollars (\$164,730,040.00) for the year 1931.

Your claimant would further show to your Honorable Board, that the amount of his official salary and compensation, as otherwise fixed by law, is insufficient to reasonably pay him, his deputies, clerks and extra help, that the work in his office will require, to be properly and expeditiously performed, in the year 1932, the year in which the taxes are to be collected on the above valuation.

Wherefore, this claimant, asks that this Board make him an extra allowance of Five Thousand Dollars (\$5000.00), as this petitioner deems just and reasonable according to law.

Wm. H. Dress
Treasurer Vanderburgh County, Indiana.

STATEMENT OF WORK IN TREASURER'S OFFICE, SHOWING INCREASE FROM 1909 to 1932. ALSO SHOWING AMOUNT OF MONEY HANDLED BY TREASURER'S OFFICE.

Since the enactment of a law in 1908, concerning the salary of County Treasurers, the assessed valuation of Vanderburgh County has increased as follows:

Table with 2 columns: Year (1909-1931) and Assessed Valuation (\$42,691,380.00 to \$164,730,040.00)

This shows that the assessed valuation of Vanderburgh County since the enactment of this law has increased from \$42,691,380.00 to \$164,730,040.00 in 1931 which is an increase of almost four times.

The amount of taxes collected from 1909 up to 1930 is as follows:

Table with 2 columns: Year (1909-1931) and Tax Amount (\$1,091,953.20 to \$5,023,849.81)

This shows an increase from 1909 to 1932 of almost five times that which was collected in 1909.

All other work in the County Treasurer's office has increased accordingly, which means more help. Salaries for deputies and clerks are twice as high now as they were in 1909 and all help is paid by the County Treasurer out of his salary, but the salary of the County Treasurer remains the same.

In 1919, the Legislature of this State, passed a law whereby the County Commissioners could allow the County Treasurer the sum of \$5000.00 for the purpose of employing a sufficient number of deputies and clerks to properly and expeditiously carry on the work of the County Treasurer's office. The purpose of this law was to take care of situations like has developed in Vanderburgh County, and the undersigned, County Treasurer respectfully submits that he is entitled to the full benefit of this law on account of the work in the County Treasurer's office being more than tripled during the last ten years and from indications is getting heavier every year.

Wherefore, in consideration of the above facts, the undersigned respectfully submits that he is entitled to the full allowance of \$5000.00.

Wm. H. Dress
County Treasurer.

State of Indiana, Vanderburgh County, SS:

Wm.H. Dress, being duly sworn, upon his oath says, that he is the Treasurer of Vanderburgh County, Indiana, and that the statements set out in the foregoing, are true, as he is informed and verily believes.

Re: Proposed Street Improvements.

Comes now the Evansville Tax Conference Committee and submits letter protesting against the improvement of various streets, which reads as follows-

"At a recent meeting of the Evansville Tax Conference Committee, which was held for the purpose of checking over proposed road and street constructions by the County and townships, we have carefully checked each one of the proposed improvements listed below and have come to the following opinions:

It is suggested that South Lemcke and Austin Avenue, which is petitioned to be constructed under the three mile road law, be rejected and that this street be repaired by the department which has the proper jurisdiction over same. We call this to your attention as we feel that this is the proper step to take on this improvement when the petition is again presented to your honorable body.

We likewise, hold that the improvement of West Franklin Street under the three mile road law should be rejected, and the same action be taken by your Board in repairing this highway.

Our Committee feels that under our present economic strain and under the burden that the taxpayers are now laboring, the same action should be taken on the Herndon & Park Drive in Garvin Park. This road can be repaired out of current maintenance funds at a mere fraction of the proposed expenditures and will be just as servicable for a number of years to come.

Our attention has already been called by the advertisement in the newspapers, to the intentions of improving Slaughter Avenue. This proposed improvement should be rejected, and I sincerely believe that competent viewers appointed on this project would reject this improvement

as not being necessary or of utility that would warrant this expenditure; therefore, we ask that this road, likewise, be repaired out of the maintenance fund and by the department which has the proper jurisdiction to do so.

In the near future you will be asked to approve the improvement of St. Joe Avenue Road under the county unit law. This road extends north through Armstrong Township and Scott Township to the Gibson County line. At present there are two residences on this road and the expenditure necessary to make the improvement is not warranted, as the road would not be of public utility in proportion to its cost and would be of service to too few persons. We, therefore, urge you gentlemen to reject this proposed improvement when it is brought up for your attention.

Thanking you for your past cooperation, we remain,

Sincerely yours,

(Signed) N.L. Kniese
Executive Secretary. "

RE-ENFORCING BAR SUPPORTS:

No bar supports were provided for in the present plan, as bars were to rest on the stringers. Finding it necessary to raise the floors one inch to keep floor system off of cords, it is necessary to have supports for reenforcing bars which will be an added item and will take approximately forty-five hundred (4500) lineal feet bar supports or chairs at the price of \$30.00 per thousand lineal feet. This is an added item.

COVERING OF TRUSS CORD TOPS:

The present specifications do not provide for a permanent form over top cord. Special forms will have to be used and should be twenty guage galvanized sheets requiring approximately twenty-five hundred (2500) feet at a cost of approximately six and one-half cents per square foot. This should remain as a part of the permanent structure. This is an added item.

STREET CAR TRACK CONSTRUCTION:

The Street Railway Company having elected to change the method of fastening the street railway tracks to the bridge, which will be beneficial to the structure and will not occasion any additional cost to the County, my recommendation is that the change be permitted.

Board of Commissioners, Vanderburgh County, Indiana, April 1932

The above items have been carefully discussed with the engineers representing the State Highway Commission, and after proper resolutions are drawn, the State Highway Commission's concurrence herein will be obtained. "

W. Mack Saunders
County Surveyor
Vanderburgh County, Indiana.

On motion the Board takes the recommendations under consideration.

Re: Franklin Street Bridge

Comes now Mack Saunders and submits recommendations for change in Hand Rail on Franklin Street Bridge, as follows-

"Regarding the hand rail on the Franklin Street Bridge, I respectfully recommend that certain important changes be made. The accompanying sketch explains the manner in which I suggest that the hand rail be tied to the sidewalk. This arrangement of steel would give the greatest possible stability to the hand rail, since we have only a four (4) inch sidewalk to which to tie.

Also, certain changes in the expansion joints would be advisable. In place of the pocket joint, as shown on the plans, I suggest an open expansion type of joint. This type gives it a wider range of expansion."

Respectfully submitted,

W. Mack Saunders
County Surveyor.

After careful consideration the Board approves and accepts changes on Franklin Street Bridge as recommended by Mack Saunders, County Engineer and approves resolutions to the Highway Commission, to-wit-

"Comes now W. Mack Saunders, County Surveyor and Engineer on the Franklin Street Bridge and represents to the Board that because of vibration, certain changes should be made in the construction of the hand rail for said bridge.

The accompanying said recommendations with the sketch showing the changes to be made and the Board having seen and inspected said sketch and being advised as to said recommendations, now resolves that the plans and specifications herein with respect to the hand rail on the said Franklin Street Bridge be changed in regard to the use of re-enforcement and the type of joint, and the changes in the expansion joints, as shown in said recommendations and in said sketch, which resolutions are unanimously adopted.

Re: Poor Relief:

The Family Welfare Association submits proposition for investigating Poor Relief in writing, as follows:

"Confirming conversation of last Thursday, June 9th, between Mr. Norman A. Shane representing our Association and your Board, together with the County Auditor, Mr. Koemann, and the County Attorney, Mr. Ensle, Family Welfare Association offers to your Board the services of our staff including our Executive Secretary, Case Work Supervisor, two Case Workers and one-half day's time five days a week of our Bookkeeper, together with volunteer workers. With the staff as outlined we estimate that we can handle 250 investigations per week. We will not, of course limit ourselves to this quantity, and as time goes on we hope to be able to make a larger number of investigations. You can, however, count definitely on 250.

It is understood that as approval forms are sent to your Board by the Township Trustees, after the \$15.00 limit has been reached that they will be turned over daily to our office for investigation. The applications will then be handled in order of their receipt, unless your Board has some reasons for giving certain applications preference, in which event we will naturally carry out your wishes.

As we understand it, at least until an investigation has been made of all those receiving aid, there will be no reinvestigation until an additional sum of \$15.00 has been dispensed by the trustees.

We agree to do this investigation work within the city limits of Evansville and in the territory immediately adjoining the city limits.

Family Welfare Association offers this investigation service to your Board free of charge and will pay the salaries of the staff outlined and the incidental expenses of maintaining the office.

We want you to feel that this investigation office is your office and your suggestions and assistance are desired at all times. Incidentally any service that our office can render in securing information pertaining to relief work or in assisting you generally with this problem will be gladly furnished without expense to you.

In addition to the work of investigation Family Welfare Association will continue to render the service to the trustees in securing charity one-half rate railroad transportation as in the past.

If the arrangement as outlined herein is in accordance with your understanding, we will appreciate your written acknowledgement to that effect, and it will be understood that the arrangement will continue in full force and effect until written notice is given by either party hereto to the other party 30 days in advance of the date that the arrangement is to be terminated.

It is our sincere hope that this arrangement will work out to the complete satisfaction of your Board, and that efficiencies resulting will result in both savings to the tax payers of Vanderburgh County and the dispensing of more satisfactory relief to those in need."

Re: Bridges on Harmony Way

The Auditor presented a letter received from the Indiana State Highway Commission, reading as follows:

"With reference to my letter to you of the 3rd of June, I wish to advise that your steel for structure 1134 along our road No. 66 8.4 miles southeast of Wadesville has not been removed from the site here to date. It is very important that this steel be removed immediately, since the grading contractor is now working in this vicinity and of course the steel being stored upon our right of way is within the grading limits and we have no provision for storage outside the right of limits.

Structure 1133 will be thrown open to traffic within the next couple days at which time the old structure will be dismantled. This old structure is located just northeast of the 1134 structure and work upon grading is now being done here. It would be to your advantage if you have some one here to load out this steel just as soon as it is dismantled."

RE: POOR RELIEF BOND ISSUE

The Board having been advised that, by reason of Chapter 10 of the Acts of 1932, which Act was enacted since the beginning of proceedings herein, the sale of bonds would be jeopardized and a legal opinion in satisfactory form approving the validity of bond issue could not be obtained, it is now determined to rescind and vacate all prior orders herein and all such orders are now, by the Board rescinded and vacated.

And it now appears to the Board, and the Board now finds that, by reason of the payment by this Board of claims incurred and filed with it by Trustees of the various Townships of this County for relief of their poor, the general fund of the County is now exhausted; that the relief of said poor is immediately and indispensably necessary; that, by reason thereof, an emergency exists for the borrowing by this County of the sum of Three Hundred Fifty Thousand (\$350,000.00) dollars, which sum the Board now finds is necessary to pay claims incurred and filed with it by the Trustees of the various townships for relief of the poor therein, which sum is in excess of the amounts which can be reasonably advanced out of the general fund of the County for such purpose under the provisions of existing laws; and which said sum of Three Hundred Fifty Thousand (\$350,000.00) dollars is not in

excess of the reasonable amount necessary for such purposes.

And now, the Board finds that it is necessary that the County Auditor shall call into special session the Vanderburgh County Council of Vanderburgh County, Indiana, to appropriate the sum of Three Hundred Fifty Thousand (\$350,000.00) dollars for the purpose of paying such claims for relief of the poor and for the purpose of authorizing this Board to borrow money to pay such claims.

WHEREFORE, it is ordered and determined by the Board of Commissioners of the County of Vanderburgh that it is now indispensably necessary, for the purpose of securing money to pay claims incurred and filed with this Board, by the Trustees of the various townships of this County, for the relief of the poor, to borrow the sum of Three Hundred Fifty Thousand (\$350,000.00) dollars, and the Auditor of the County is now directed to call into special session the Vanderburgh County Council of Vanderburgh County, for the purpose of appropriating funds for such relief and of authorizing the Board of Commissioners to borrow such amount of money, and the Auditor is further directed, at such meeting, to present to said County Council this order as its request that such appropriation be made and such authority to borrow money be granted by said Council.

Re: Investigator for Perry Twp Trustee

Comes now William Brown, Trustee of Perry Township and asks for additional investigator. The Commissioners approve the appointment.

The Honorable Board of County Commissioners
Vanderburgh County, Indiana

The undersigned William Brown, as the township trustee of Perry Township, Vanderburgh County, Indiana, respectfully petitions your Honorable Board and says:

That since assuming the duties of his office in the month of April, 1932, his major problem has been that of attending to the demands for poor relief; that he has about five hundred families now receiving such relief; that it has been a physical impossibility in each case to make a thorough investigation as the law really requires; with the approach of the winter months the problem obviously will become more serious. I am firmly of the opinion that the employment of an intelligent person to aid in making more thorough investigations will bring about a more efficient and economical administration of poor relief.

I, therefore, pray an order of your honorable Board, which would enable me to employ one person as inspector, pursuant to the provisions of an Act of the General Assembly of Indiana, Special Session of 1932, providing for the employment of such inspectors by township trustee in counties having a population of fifty thousand or more, according to the last United States census.

Dated this the 24th day
of September, 1932.

Re: Reduction of taxes of A. Mack

A petition was filed by District Court of U.S. for Southern Indiana with reference to reduction of taxes of a Mack, Bankrupt., which reads as follows:

IN THE DISTRICT COURT OF THE UNITED STATES
FOR THE SOUTHERN DISTRICT OF INDIANA
EVANSVILLE DIVISION

IN THE MATTER OF
ABRAHAM MACK,
BANKRUPT

In Bankruptcy #994

At Evansville, In said District, on the 8th day of October, 1932,
before George F. Zimmerman, Referee in Bankruptcy.

This being the time fixed by order of the Referee for the determination of the amount of City, County and State taxes for which said Bankrupt estate is liable to the County Treasurer of Vanderburgh County, Indiana, on the personal property of said estate for the years 1929, 1930 and 1931, and for said bankrupt and the County Treasurer, County Assessor and County Auditor of said County to show cause why the assessed value of said personal property for said years 1929, 1930 and 1931 should not be reduced in amount and why the same of tax for which said estate is liable on said personal property should not be determined and why the tax on the property set off to the bankrupt as exempt shall be paid by the trustee herein out of the funds of said bankruptcy, said bankrupt appeared by his attorney, Emra H. Ireland, said County officials of Vanderburgh County, Indiana, appeared by James F. Ensle, County Attorney of said Vanderburgh County, and the trustee appeared by his attorneys, Walker & Walker.

And said matters now coming on for consideration and the Court having heard evidence relating to the personal property owned by the bankrupt in Pigeon Township in said County, and the value thereof on the 1st day of March of 1929, 1930 and 1931 respectively, and being duly advised, finds that for the year 1929, said bankrupt was assessed in said township with household furniture of the value of \$400.00, one Buick Automobile of the value of \$830.00 and one Truck of the value of \$400.00, none of which property was the property of said bankrupt, but was the property of the wife of said bankrupt, and that said bankrupt estate is not liable for the tax thereon. That the personal property of said bankrupt on March 1st, 1929, consisted of stock of goods, fixtures and money on hand and was at said time of the true cash value of \$2100.00 and that the total personal property of said Abraham Mack on the 1st day of March, 1929, should have been assessed at a valuation of \$2100.00 and the amount of tax on personal property for which said estate is liable for the year 1929 is \$66.78.

The Court further finds that in the year 1930, said Abraham Mack was assessed with one Buick Sedan, one Ford Truck and Furniture and fixtures, also Phonograph, Piano and other household fixtures all of the total assessed value of \$1180.00, which property was not then the property of said bankrupt, but was the property of the bankrupt's wife and that said bankrupt estate is not liable for the tax thereon. The Court further finds that all the personal property belonging to said bankrupt in said Pigeon Township on the 1st day of March 1930, was of the true cash value of \$2100.00 and said estate is liable for the taxes on said personal property at said valuation of \$2100.00 and that said taxes for the second installment for the year 1930, at said valuation, amounts to the sum of \$33.18, being the total tax on personal property of said bankrupt for which said estate is liable for the year 1930.

The Court further finds that in the year 1931, said Abraham Mack was assessed in said Pigeon Township with one Buick Sedan and household furniture of the assessed value of \$700.00, which property was not then owned by said Abraham Mack, but was the property of his wife and that said bankrupt estate is not liable for the tax thereon. The Court further finds that the true cash value of all the personal property of said bankrupt in said township on the 1st day of March, 1931 was \$2100 and that of said \$2100.00 property of the value of \$600.00 was set off to said bankrupt as exempt and that the estate of said bankrupt is not liable for taxes for the year 1931 on said exempt property, but is liable on said sum of \$2100.00 less the bankrupt's exemptions of \$600.00, being the sum of \$1500.00 on which the taxes for the year 1931 should be paid out of said estate, and that the taxes on personal property for the year 1931 for which said estate is liable, amounts to the sum of \$47.10.

It is therefore ordered that the total taxes on personal property of the bankrupt in said Pigeon Township for which said bankrupt estate is liable for the year 1929, is \$66.78, for the year 1930 is \$33.18, and for the year 1931, is \$47.10, making the total amount of taxes on personal property for which said bankrupt estate is liable for the years 1929, 1930 and 1931 is \$147.06, and that the trustee should pay said sum forthwith to the County Treasurer of said Vanderburgh County.

Re: Additional clerical help in
County Auditor's office.

Comes now Edw. D. Koenemann, County Auditor, and states that since he was inducted into office as County Auditor, the work of handling poor relief in his office has more than tripled; that it takes the time of more than one clerk in his office to do this work; that there is no statute compelling him to handle poor and unemployed relief claims in his office and that for the past year he has spent much time and has spent much money out of his private funds in order that the claims for poor relief and unemployed relief be properly audited and paid.

He now asks that the Commissioners permit him to appoint one clerk and that this clerk be paid out of poor relief funds, this to begin December 1st, 1932.

WHEREFORE, the Commissioners find that the facts as stated by Auditor Koenemann are true, that an emergency exists and do hereby approve the petition of Auditor Koenemann and authorize him to appoint a clerk to assist him in handling the poor relief work of his office, said clerk to be paid out of poor relief funds.

We, the undersigned trustees of the various townships of Vanderburgh County do also find the foregoing statement of County Auditor Koenemann to be true and correct and approve and authorize the action taken by the County Commissioners.

Re: Franklin Street Bridge

The Board now concludes that the contractor herein, Globe Construction Company, was not obligated under the plans and specifications and his contract to prop up and render safe the south portion of the old bridge during the time of the construction of the north portion thereof, and that the County is not entitled to any rebate because of the fact that the contractor was not required so to prop up and render safe said old portion, for the following reasons:

1. Neither the contract nor the plans and specifications provided that the contractor should so prop and render safe said south structure.

2. Said south structure was torn down by the contractor upon the written order of W. Mack Saunders, engineer in charge of the construction of said bridge, who issued such order for the reason that in his opinion, said south structure was liable to fall at any time and was unsafe and a menace to the public.

3. Because of the immediate destruction of said south portion, it was possible to build the north portion better, more rapidly, and without any hazard to the lives of workmen and the public.

The Board further finds from the affidavit of Edgar Traylor, President of the Globe Construction Company, and from the certificate of W. Mack Saunders, County Engineer, and engineer in charge of the construction of said bridge, that a mistake was made in figuring estimates of amounts due the contractor in that the amount due the contractor for the construction of one certain extra: the extra paving of a part of Franklin Street: was omitted, which said paving was done by the contractor and for which paving, under the plans and specifications, and under the contract, the contractor was entitled to receive the sum of One Thousand Five Hundred Eighty-Four Dollars (\$1,584.00).

And now the Commissioners allow the contractor said additional sum of One Thousand Five Hundred Eighty-Four Dollars (\$1,584.00).

RE: APPLICATION OF CITIZENS RELIEF COMMITTEE FOR AUTHORITY TO APPOINT INVESTIGATORS:

Comes now A. W. Hartig, President and Chairman of the Citizens Relief Committee and represents to the Board that the interest of the work of this Committee and of the taxpayers of this County require the appointment of six paid investigators by this Committee.

And the Board, having considered said request and being fully advised, now finds that there has been appropriated by the County Council, for the purpose of investigation by the Board of Commissioners of applicants for poor relief the sum of \$1500.00; that it is impossible for the Board to investigate all applicants for relief who have been extended as much as \$15.00 of poor relief, except through the employment of investigators to make such investigation.

And the Board now appoints the Citizens Relief Committee as the agency through which it will investigate all applicants for poor relief who have received aid to the amount of \$15.00, and upon recommendation of said Relief Committee, through its president, appoints as investigators to work under the orders of said Relief Committee, the following named persons, to-wit: John Wingerter, Ed G. Hartig, Chas. Mooney, Chester McGill, Belmer D. Re: Repairs to Orphan Homes

Building inspector Schlamp from the City presented the following recommendations for repairs of Colored and Girls Orphan Homes:

RE: Girls Orphanage-Marine Ave.

Following an inspection of the above named institution, we, the undersigned wish to make the following recommendations:

1. Rehang all exterior doors so that they will swing out instead of in.
2. Equip all exterior doors and dormitory doors leading to corridor with panic release hardware. (The matron advised us that it is necessary to keep all corridor and exterior doors locked at night for fear some of the girls would leave the home. Imagine the result should a fire occur at night and the matron would be unable to unlock all the doors necessary to empty the building. We suggest that a signal alarm be installed to sound in the matron's bedroom should any of the exit doors be opened.)
3. Repair certain roof supports in attic.
4. Remove all old wood shingles from old roof in attic.
5. Provide electric receptacles where required to prevent the use of lamp cord, which we found hung on nails.
6. Instruct matron to conduct fire drills for children, teaching them to use all stairways and doors.
7. Replace all fuse plugs in electric branch circuit cabinet with plugs not to exceed 15 ampere capacity.
8. Repair wiring in kindling room in basement.
9. Install a complete fire alarm system inside the building with master box on outside.

We are glad to report that the general condition of this building is very good and if the above recommendations are complied with, the fire and panic hazards will be greatly reduced.

Thanking you for your prompt attention to this matter, we remain,

Very truly yours,

Re: Poor Relief

Comes now the Citizens Committee and asks the co-operation of the County in establishing poor relief farms and gardens:

To the Honorable County Commissioners
of Vanderburgh County.

Gentlemen:

It being a fact that a model farm of 2 - 40 acre tracts was operated during the 1932 session, which did show a net result of approximately \$10,000 worth of food stuff, which is now being used in the food kitchens established, by the Township Trustees, and the Vanderburgh County Relief Committee, at a considerable saving to the County and as such farms can be operated at practically no expense to the County, the Relief Committee designated by the Governor to supervise the expenditure of funds secured by Vanderburgh County from the Reconstruction Finance Corporation, desire that a plan be worked out, whereby at least a minimum acreage of 300 acres can be secured under the new law exempting such acreage from taxation and utilizing the unemployed relief labor.

All that is asked of your Honorable Commission is to assist in securing such acreage, on securing the seed when required to do so, and grant the use of County teams, tractors, trucks and tools when necessary.

A Committee will be appointed to take charge of this work, relieving you of all the details.

The food stuffs raised to be, where possible, put in food containers for family use and all to be assembled in a good commissary, which will be established.

We believe that at least \$125,000.00 can be saved in this manner, which of course depends on the acreage secured.

Trusting that you will give this your approval and assistance so that the relief Committee at their next regular meeting appoint the sub-committee to take care of this project.

Very truly yours,

Vanderburgh County Relief Committee.

The Commissioners decide to co-operate in every way possible.

County Commissioners of Vanderburgh County-

Gentlemen:

Due to the recent hail storm quite a large number of roofs were damaged and windows panes broken in houses under lease by the Welfare Housing Corporation.

On account of health and sanitary conditions among the tenants of these houses, also on account of the contracts covering these leases with the owners, these damages must be repaired and replaced.

Therefore we beg of you to give this matter your immediate consideration, and if you can possibly see fit to do so, endow each trustee with written authority to purchase the necessary material required.

The labor for this work will be furnished gratis.

Yours very truly,

E. S. Attebury, Mgr.
Welfare Housing Incorporation "

This matter was referred to the County Attorney, who approved the above request. Whereupon the Commissioners grant request.

Re: Melcher Road

IN THE MATTER OF THE VACATION OF MELCHER ROAD

REPORT OF VIEWERS

We, the undersigned viewers, having heretofore been appointed by your Honorable Board on the 24th day of April, 1933, and having met at the office of the County Auditor and having qualified to faithfully perform our duties as provided by law, proceeded to view the highway which has been petitioned to be vacated and closed by Carl Boehne, et al, which road is known and designated as Melcher Road, a public highway located in Scott Township, Vanderburgh County, Indiana, and find that said road runs in a generally easternly and westernly direction in said Township, County and State, the eastern terminus of said road being located on U.S. Highway No. 41 and at a point approximately eleven hundred (1100) feet south of where a public highway known as Stacer Road intersects said U.S. Highway No. 41, said road then runs in a generally westernly direction with a very slight variation

to another public highway commonly called the Darmstadt-Haubstadt Road.

Your viewers further state that said highway as it exists at the present time is a dirt road its entire distance and is not used to any great extent by the travelling public. We also find that this road runs approximately parallel to the said Stacer Road and at no place is it more than one-quarter (1/4) of a mile south of said Stacer Road.

We find that the vacation and closing of said Melcher Road to be of public utility and that said road ought to be vacated and closed.

IN RE: BOND ISSUE OF \$250,000.00 FOR POOR RELIEF

Upon information from the County Auditor as to the condition of the general fund of the County, it now appears to the Board, and the Board now finds that, by reason of the payment by this Board of claims incurred and filed with it by Trustees of the various townships of this County for relief of said poor is immediately and indispensably necessary; that, by reason thereof, an emergency exists for the borrowing by this County of the sum of (\$250,000.00) Two Hundred Fifty Thousand Dollars, to pay claims incurred and filed or to be incurred and filed with this Board within the succeeding six (6) months by the trustees of the various townships of the County for relief of the poor.

And the Board now estimates that the sum of Two Hundred Fifty Thousand (\$250,000.00) Dollars will be required during the succeeding six (6) months for the relief of the poor of the various townships of Vanderburgh County in excess of the amounts which can be reasonably advanced out of the general fund of said County for such purpose under the provisions of existing laws.

And now the Board finds that it is necessary that the County Auditor shall call into special session, the Vanderburgh County Council of Vanderburgh County, Indiana, to appropriate the sum of Two Hundred Fifty Thousand (\$250,000.00) Dollars, and for the purpose of authorizing this Board to borrow money to pay said claims to be filed during the next succeeding months.

WHEREFORE, it is ordered and determined by the Board of Commissioners of the County of Vanderburgh that it is now indispensably necessary, for the purpose of securing money to pay claims for the relief of the poor incurred and filed with the County Auditor by the trustees of the various townships of the County, and which will be so filed during the succeeding period of six (6) months, to borrow the sum of Two Hundred Fifty Thousand (\$250,000.00) Dollars, and the Auditor of the County is now directed to call into special session, the Vanderburgh County Council for the purpose of appropriating funds for such relief and of authorizing the Board of Commissioners to borrow such amount of money; and the Auditor is further directed, at such meeting, to present to said County Council this order as its request that such appropriation be made and such authority to borrow money be granted by said Council.

IN THE MATTER OF THE VACATION OF
MELCHER ROAD.

Come now the petitioners herein by their attorney, Ollie C. Reeves, and come also the reviewers heretofore appointed by this Board in the above entitled cause; and the Board being advised in the premises, finds that the reviewers met at the County Auditor's office in the City of Evansville, Indiana, on the 17th day of May, 1933, and qualified as required by law and proceeded immediately to carry out the orders of this Board and on the same day reviewed the road mentioned in the petition and determined all questions required by law and ordered by said Board to be determined by said reviewers, and thereupon made their report as provided by law and in accordance with the order of said Board; that they filed said report on the 17th day of May, 1933, which report shows that said reviewers reviewed said road and found that it would be of public utility to vacate and close said public highway and that said road ought to be so vacated and closed; and their said report further shows that the closing of said highway will not be a disadvantage to the public or to the citizens of the neighborhood where said road exists and also said report shows that none of the remonstrators, or anyone else, will suffer any damages as a result of the vacation and closing of said Melcher Road, which report was signed by all of the reviewers and which report also included a description of said highway, which report of said reviewers is in words and figures as follows, to-wit:

"We, the undersigned reviewers, having heretofore been appointed by your Honorable Board on the 15th day of May, 1933, and having met at the office of the County Auditor and having qualified to faithfully perform our duties as provided by law, proceeded to review the highway which has been petitioned to be vacated and closed by Carl Boehne and others, which road is known and designated as Melcher Road, a public highway located in Scott Township, Vanderburgh County, Indiana, and find that said road runs in a generally easternly and westernly direction in said township, County and State, the eastern terminus of said road being located on U.S. Highway No. 41 and at a point approximately 1100 feet south of where a public highway known as Stacer road intersects said U.S. Highway No. 41, and said road then runs in a generally westernly direction, with a very slight variation, to another public highway commonly called the Darmstadt-Haubstadt road. Your reviewers reviewed said highway to determine and assess the damages which the remonstrators claim they will sustain from the vacation and closing of said highway, and your reviewers found and further state that said highway as it exists now at the present time is a dirt road its entire distance and is not used to any great extent by the travelling public. We also find that this road runs approximately parallel to the said Stacer Road and at no place is it more than one-quarter (1/4) of a mile south of said Stacer road. We also find that the vacation and closing of said Melcher road to be of public utility and that said road ought to be vacated and

Board of Commissioners, Vanderburgh County, Indiana, May 25th 1933

closed and that the vacation and closing of said highway will not be a disadvantage to the public or to the citizens of the neighborhood where said road exists.

We further find that none of the remonstrators, or anyone else will suffer any damages as a result of the vacation and closing of said Melcher road, and we, therefore, recommend the vacation and closing of said road.

(Signed) John Fridy
George Mexal
Edward Weinzapfel
Reviewers "

And the petitioners further show, and the Board so finds, that said highway petitioned to be vacated and closed is located in Scott Township, Vanderburgh County, Indiana, and now the Board approves said report of said reviewers and orders the same spread of record as above set out.

IT IS, therefore, considered, ordered and adjudged by the Board of Commissioners that said report of the reviewers be filed and made a part of the record of this cause.

It is further ordered by the Board that the remonstrators shall pay the costs of this proceeding.

It is further ordered by the Board that said Board be, and the same is hereby vacated and closed.

Re: Clerical Hire of Circuit Clerk

The undersigned, Clerk of the Vanderburgh Circuit Court, respectfully shows to your Honorable Board that in his official capacity he is also the Clerk of the Vanderburgh Probate Court and of the Superior Court of Vanderburgh County; that at the present time he has employed in his office as such clerk, one chief deputy clerk and three subordinate clerks; that the clerical force so employed by him is inadequate at this time for the proper discharge of the duties imposed by statute upon him; that it is necessary for him, to fulfill the duties of such clerk adequately and properly, to employ additional help.

Your petitioner respectfully shows that pursuant to an Act of the 78th Session of the General Assembly of the State of Indiana entitled "Public Officials and Salaries", Section 2, he is empowered to ask of your Honorable Board for the employment of additional help in order to discharge the duties of his office adequately; and that upon a proper showing being made by him, your Honorable Board shall appoint such other deputies and other assistants as may be necessary to discharge the duties imposed upon him.

Your petitioner further respectfully shows to your Honorable Board that at the present time and for some time to come, the duties of his office will be increased and enlarged by reason of the necessity of electing delegates to the Constitutional Convention to be held in the State of Indiana; that pursuant to the Acts of the General Assembly hereinbefore referred to, and reading on page 851, et seq. the duties of the Clerk are amplified and extended.

Further, pursuant to the Acts of the General Assembly before mentioned, reading on page 887, provision is made for the registration of voters in the State of Indiana, which registration is to occur during the year 1934, and is to be a permanent registration of voters. Section 6 of the Act, entitled "Permanent Registration of Voters", provides as follows:- "The Clerk of the Circuit Court of each County shall be ex officio the registration officer of such County and shall have full charge and control of the registration of voters within such County." The Act is very extensive and increases and augments the duties of the Clerk to a much greater extent than at the present time.

In order to carry out, adequately and properly, the duties of his office and in order to comply with the proper discharge of his duties, it will be necessary for additional help in the Clerk's office.

Board of Commissioners, Vanderburgh County, Indiana, May 25th 1933

WHEREFORE, your petitioner respectfully requests that he be authorized by your Honorable Board to employ another deputy in his office; that the compensation of such deputy be fixed by your Honorable Board, and that your Honorable Board make a recommendation to the County Council for an appropriation for the amount of salary to be paid to such additional deputy.

All of which your petitioner respectfully requests.

IN THE MATTER OF THE PETITION
OF LILLIE SCHILI, ET AL, FOR
THE LOCATION OF A PUBLIC HIGH-
WAY IN PERRY TOWNSHIP, VANDER-
BURGH COUNTY, INDIANA.

REPORT OF VIEWERS

We, the undersigned viewers appointed by the Board of Commissioners of the County of Vanderburgh, Indiana, to view, mark and lay out a certain proposed highway as petitioned for by Lillie Schili and others, submit the following report:

We met as directed in the order hereto attached and made a part hereof, and after taking an oath to faithfully and impartially discharge the duties assigned us, proceeded to view and did view, mark and lay out such proposed highway in the manner as by law prescribed; that the route, bounds, course, distance and termini of said new highway are more particularly described as follows:

"Commencing at a point where the line between sections Twenty-one (21) and Twenty-two (22), Township Six (6) south, Range Eleven (11) West intersects with a public highway known as the Upper Mt. Vernon Road in Vanderburgh County, running thence north on said line between said Sections Twenty-one (21) and Twenty-two (22) to the Tupman Cemetery in Perry Township, Vanderburgh County, Indiana, being the north line of said sections Twenty-one (21) and Twenty-two (22), and being wholly located in Vanderburgh County, Indiana"

That the width of said highway as above laid out is thirty (30) feet; that said north and south section line is located at the center of said highway as by us laid out; fifteen feet of said highway being taken off section Twenty-one (21) adjoining said section line and fifteen (15) feet thereof being taken off section Twenty-two (22) adjoining said section line, and that said proposed highway would be of public utility.

We, the undersigned property holders in the immediate vicinity of Alvord & Bellemeade in Washington Terrace, ask that if at all possible, the County Commissioners remedy the drainage condition at the corner of Bellemeade and Alvord.

An early action on this condition is needed and will be appreciated by us.

Re: Poor Relief Claims

Communication from Mr. Cosgrove, Board of Accounts and Wm. H.Book was received and reads as follows, and ordered made a part of the record:

Indianapolis, Indiana,
 November 8th, 1933

TO ALL COUNTY AUDITORS AND TOWNSHIP TRUSTEES:

Several days ago, as a result of questions being raised in a number of Counties, the matter of how poor relief funds, both local and federal, shall be disbursed, was discussed in a meeting of the County Auditors' Association.

Representatives of the State Board of Accounts and Governor's Commission on Unemployment Relief were present, and it was made known that the Governor's Commission would not approve of federal aid funds being disbursed except in the manner which had been in force for many years, namely, through the County Auditors for each County.

It was agreed at this meeting on the part of the Auditors present to continue the old method in effect until January 1, 1934, and an executive committee was appointed to meet with the State Board of Accounts and Governor's Commission on Unemployment Relief to consider what routine ought to be followed after that time.

A meeting of the committee was held with representatives of the two departments on November 8th, at which the following resolution was adopted to be effective as of January 1, 1934:

"Poor claims shall be filed by the creditor with the township trustee, who shall check original purchase orders with duplicate orders, and determine the validity of the claim. The trustee, after approving such claims, shall present same to the County Auditor, who shall check extensions and totals, and present the same to the County Commissioners for approval. Upon approval, the County Auditor shall draw a warrant on the County Treasury for amount to each claimant, same to be charged to individual township poor relief funds, and proportionate share to federal aid relief funds."

It is hoped that each county will follow the system which has been in use for the balance of the year, and make such changes as are necessary, if any, to place the plan outlined in the resolution above in effect on January 1, 1934.

It is expected that the township trustee in determining the validity of the claim will not only compare the original purchase order with the duplicate order, but will also verify the correctness of the total of the itemized list on the reverse side of each such purchase order.

The Governor's Commission on Unemployment Relief requires that the township trustee require of each vendor of poor relief supplies that he furnish an itemized store bill, using his regular form, to the relief recipient at the time the recipient receives his food or other relief order.

Re: Boehne Hospital Service Building

The Board of Boehne Hospital present a petition for a new Service Building to be built on the 70-30 Government plan.

"Honorable Board of County Commissioners,
Vanderburgh County,
Evansville, Indiana.

Gentlemen:

The present Service Building at Boehne Tuberculosis Hospital is a frame structure built in 1912. It adjoins the Main Hospital Building which houses our sickest patients. The Service Building contains the laundry, refrigeration plant, food storage rooms, dining rooms for patients, staff and employees and bed rooms for employees.

This building is no longer adequate for the purpose for which it is used. the most important consideration concerning it is that it is a veritable fire trap. A serious fire in this building would greatly endanger the safety of the many bed-ridden patients in the Main Building. Such a fire would probably do great damage to the Main Building itself. It would disorganize the operation of the entire hospital to such an extent that it would be necessary to close it until arrangements could be made to take care of the work now done in the Service Building.

The possible calamity to which Boehne Hospital is thus exposed is emphasized by the unfortunate occurrence of November 25th when the Mills Building was almost destroyed by fire.

It is our desire to assure our patients and their families that the County authorities are doing all they can to make Boehne Hospital an Institution that need cause them no worry so far as a possible fire is concerned. The peace of mind of the patients has a profound influence on their chances of recovery.

There is thus an urgent need for a new Service Building.

The present central heating plant in the Community Building would not have sufficient capacity to take on the added requirements of the new Service Building. The plant in itself is a fire hazard and is poorly situated. It would not be economical to enlarge its capacity. The solution of the difficulty would seem to be the erection of a new central heating unit, sufficiently removed from the hospital buildings and large enough to supply the present Institution and possible future additions thereto with heat.

For economical operation of the hospital, service tunnels connecting the principal units are a necessity. Not only would they serve as avenues of communication and transportation in all kinds of weather, but as routes for electric wires and steam pipes.

Board of Commissioners, Vanderburgh County, Indiana, December 18 1933

A new Service Building would require some new Equipment, A part of the laundry equipment is no longer entirely serviceable. The operation of the kitchen is hampered by lack of the proper kind of equipment. The importance of fitting out both laundry and kitchen with the right kind of labor saving devices is clear to anyone remembering that about 180 people will live permanently at the Institution.

We therefore request you to apply to the Federal Public Works Administration authorities to grant Vanderburgh County a loan on the 70-30% plan for the following additions to Boehne Tuberculosis Hospital:

A new fire proof Service Building across the road from the main hospital building.

A new Central Heating Plant.

Service Tunnels connecting the main units.

New equipment for laundry, kitchen, dining rooms and living rooms in the Service Building, roughly estimated at \$10,000.

We believe that the great work that Boehne Tuberculosis Hospital is doing under the able direction of Dr. Crimm need not be emphasized because you gentlemen are fully acquainted with the Institution and the manner in which it is conducted. We might remind you at this point that the hospital has a revenue which in recent years has ranged anywhere from \$10,000 to \$30,000. The hospital can easily pay for the project herein outlined in a much shorter period than is required by the P.W.A. plan.

May we take this occasion to express our appreciation of the sympathetic attitude you have always taken toward our Institution.

Respectfully submitted,

Board of Managers,
By Walter Leich, Pres."

Re: Assistant for Registration of Voters

TO THE HONORABLE BOARD OF COUNTY
COMMISSIONERS OF VANDERBURGH
COUNTY, INDIANA:

The undersigned, Clerk of the Vanderburgh Circuit Court, respectfully shows to your Honorable Board that pursuant to an Act of the 78th Session of the General Assembly of the State of Indiana, reading on page 887 of such Acts, provision is made for the registration of voters in the State of Indiana, which registration is to occur during the year 1934 and is to be a permanent registration of voters, Section 6 of the Act, entitled "Permanent Registration of Voters", provides as follows:-- "The Clerk of the Circuit Court of each County shall be ex-officio the registration officer of such County and shall have full charge and control of the registration of voters within such County."

Your petitioner respectfully submits that said Act is very extensive and technical in its terms and increases and augments the duties of the Clerk to a very great extent; and that in order to carry out adequately and properly the provisions of said Act and to comply with the intent of the Legislature, it will be necessary for him to employ additional help in his office.

Board of Commissioners, Vanderburgh County, Indiana, January 8th 1934

Your petitioner shows that he has made investigation, and that he believes that he can adequately and properly comply with the intent and purpose of the Legislature by employing two employees in his office, one, a man, to be in charge of the registration, whose compensation should be not in excess of \$150.00 a month, and one, a woman, to be employed for the purpose of compiling the necessary data, whose compensation should be not in excess of \$75.00 per month.

Your petitioner further believes that it would be advisable to have a man employed as the Clerk of Registration and that a lady should be employed for clerical help. Your petitioner further shows that it will be necessary for him to secure said help immediately, as the Permanent Registration of Voters is to go into effect on January 15, 1934, and that it will be necessary that preparations be made for the compiling of said data prior to said time. Your petitioner therefore requests your Honorable Board that he be authorized to employ two assistants in his office, one a man as chief Clerk of Registration at a compensation of \$150.00 a month and the other a woman, at a salary of \$75.00 per month, and that he be further authorized to start the payment of such employees on and beginning January 10, 1934, and that upon the approval of this petition, a recommendation be made to the County Council for an appropriation for the compensation to be paid pursuant to this petition.

All of which your petitioner respectfully requests.

The urinal holding rack swings out of the way when the bedpan holding rack is in use. The flushing of the urinal is accomplished by an independent water jet.

Item 3- NORTH UTILITY ROOM

Bedpan Steamer on wall brackets with one wall mounting supported for two, five pan racks.

1. SIZE. The reservoir shall be 16" front to back, 24" wide. The capacity shall be five Perfection or similar type bedpans. Adjusted to fit any size bedpan.

2. CHAMBER & COVER. Chamber shall have rounded side corners smoothly formed with not less than 3/4" radius. Chamber and cover shall be made from cold rolled copper, tinned inside, not lighter than ".0486. Chamber shall be reinforced at top by heavy brass bar around which the edges of the copper chamber shall be rolled without the use of solder or rivets. Bottom of chamber shall be slightly dished to provide for complete drainage. Drain opening shall be protected against stoppage by a 2" removable screen.

Cover shall be formed seamless, dome shaped, and shall be attached to the chamber by heavy brass hinges.

3. LIFTING DEVICE. Cover only shall be raised by means of a foot pedal of the lift and release type. Full opening shall be accomplished by one downward thrust of the pedal and cover shall be secured in the open position by a ratchet check which shall engage automatically when cover is raised. Ratchet check shall be released by tilting action of pedal and slamming of cover prevented by an oil check.

4. REMOVABLE RACK. A removable rack made from nickeled brass bars, having five pockets each to accommodate a standard Perfection type or similar model bedpan resting on edge and with sufficient clearance to provide for easy handling shall be furnished. The rack shall contain suitable handles, one at each side, with which the rack of pans may be placed in or removed from the steamer.

5. HEAT. The steamer shall be provided with a suitable connection for admission of steam direct from boiler through a restricted outlet for practically instantaneous sterilization of pans.

6. ATMOSPHERIC STEAM EXHAUST SYSTEM. The sterilizer, unless otherwise specified, shall be equipped with a 2" atmospheric steam exhaust outlet, located at the back of the chamber and at the extreme top. No overflow outlet shall be required since the steamer has a large permanently opened waste connection through which all condensation will be discharged as rapidly as it accumulates.

7. CONDENSOR STEAM EXHAUST SYSTEM. This system shall be provided only when specifically ordered in place of the atmospheric system described in paragraph 6. It shall consist of a Venturi tube ejector valve and fittings attached to the steam exhaust outlet from the chamber by means of which a small stream of cold water passing through the ejector shall create suction on the chamber, sufficient to exhaust excess steam which shall be condensed and carried into the waste system. Water supply to the ejector shall be of the American sanitary type which shall avoid all possibility of withdrawal of any water which might be contained in the steamer reservoir should its waste outlet and the reservoir filled to the extreme top with water, under a condition of vacuum in the water supply pipe.

8. STANDARD EQUIPMENT. The steamer shall be furnished complete with equipment as specified herein including a valve for controlling steam supply, an outlet for direct unvalved connection to the waste system, and steam exhaust facility as specified in the proposal. The steamer shall be mounted unless otherwise specified, upon a tubular steel stand with welded joints with adjustable brass floor plates.

9. FINISH. Chamber and cover shall be finished in polished nickel outside; interior surfaces shall be heavily tinned. Lifting mechanism shall be finished in durable black enamel. Stand shall be finished in baked and polished white enamel or other color if so ordered.

ITEM 4. BEDPAN HOLDING RACK- (2) Cast brass, so designed as to tilt at an angle beyond the perpendicular when door is closed and to assume the horizontal position when the door is opened. Adjusted to fit any size pan.

Re: Bids on Sterilizers & Equipment
for Boehne Hospital

The Boehne Hospital Board of Managers recommend accepting the following bids on Sterilizers and Other Equipment-

Dears Sirs:

In regard to Sterilizers for Boehne Hospital, the Board of Managers recommend that the bid on Item #1, be given to Frank S. Betz Co. for Eighty Hundred and Forty Dollars (\$840.00)

Item #2- We recommend that the bid for the Ben Pan Washer be given to the Plumbers' Supply Company, for Two Hundred and Ninety-Five Dollars (\$295.00). The other bidders did not bid on a urinal attachment. Neither do they check with the roughing-in measurements.

Item #3- We recommend that the bid for the Bed Pan Steamer on wall brackets, without the pan racks, be given to the Plumbers' Supply Company, for One Hundred and Sixty Dollars (\$160.00). A bid of Two Hundred Dollars (\$200.00) made on this item, bid by Crane Company does not correspond to roughing-in specifications.

Item #4- We recommend the bid be given to Crane Company, since they are the only ones to bid on item #4, provided of course that the two Five-Pan Racks will fit drain specifications at Boehne Hospital.

As stated, we desire two Wall Supports with a Drain Tray. These were bid in at nineteen dollars and twenty cents (\$19.20) each, by the Crane Company.

Yours very truly,

(Signed) Paul D. Crimm "

We, the Trustees of Indiana, are entrusted with the safety of our most precious possession. The lives of our school children.

Before the beginning of another school year, we must make sure that every safety precaution has been taken, to insure the safety and well being of our children.

Our school busses are the first contact we have with the pupils. Are the busses mechanically in order? How about the brakes, lights, cracked or broken glass and does each bus have a properly filled fire extinguisher? Many road crossings are hazardous at this time, due to crops, weeds, or brush obstructing the view. With the cooperation of the County Highway Department and the landowners most of these can be eliminated satisfactorily.

How about the playground equipment? Have the swings and rides been checked and repaired, so no child will get a needless fall due to worn equipment.

In our school buildings there are many things to be considered for safety's sake. Probably the first consideration should be given to fire and fire fighting equipment, as many of our township schools are not located near an organized fire department. The only quick protection we have is our extinguishers and fire hose in the buildings. Check these carefully, as faulty equipment is very dangerous to use and would be of very little aid in case of need. Make certain that fire routes out of the building are open and that fire drills are held regularly that each child may know what to do and thereby avoid panic. Another item of the fire hazard problem is the proper disposition of all rubbish, and the storage of inflammable material. These things should be properly disposed of at all times.

To avoid the possibility of falls do not have slippery floors or water spilling on floors near stairways. A little caution in this could save some child from a bad fall down the stairway.

Let us all work to the best of our ability to make the schools of Indiana a safe place for the children who attend them.

T. C. DICKSON,
Secretary-Treasurer.

Indiana Lost An Estimated \$18 Million in Gasoline Tax Paid to Federal Government

Indiana lost an estimated \$18 million in gasoline tax paid to the federal government during the 1953-54 fiscal year, according to a compilation released by the Indiana State chamber of Commerce.

Jack E. Reich, executive vice-president of the State Chamber, said Indiana received \$11,053,722 in federal grants for highway purposes during the 1953-54 fiscal year, which ended July 1, and that Indiana motorists paid an estimated \$29,190,673 into the federal treasury as a result of the federal government's two-cent per gallon excise tax on gasoline.

"This is another example of the inefficiency of sending money to Washington and then receiving back only a small portion of taxpayers' investments," Reich said.

It was pointed out that Indiana received for roads in the past year only 37.8 cents of each dollar collected in Indiana as a result of the federal tax on gasoline. Of the money received by Indiana, \$10,744,797 was spent on state highways, including streets which are part of the state system, and \$308,974 was spent on county roads.

The accompanying chart illustrates the status of federal aid grants for Indiana roads during the past 10-year period, the fiscal years 1945 to 1954. During that period Indiana has received actual federal aid for roads totaling \$65,315,169 and taxpayers of Indiana have paid an estimated \$177,043,307 into the federal treasury in gasoline taxes. This indicates, according to the State Chamber, that the federal government over the 10-year period has returned to the state for roads only 37 per cent of the gasoline tax money paid by Indiana motorists.

The difference of \$111,728,000 went in part to other states in federal highway aid and in part was spent for general federal government purposes.

A complete "scoreboard" of federal funds received for Indiana roads, together with estimated federal gas tax collections in Indiana as a result of the 1.5-cent tax prior to November 1, 1951, and the 2-cent tax since that time follows:

Fiscal Year	Federal Highway Aid to Indiana	Estimated Ind. Federal Gas Tax Payments

Catastrophic Accidents Are Now Showing Big Decline

Catastrophic accidents—those killing five persons or more—took less than half the number of lives in the United States during the first six months of this year than in the comparable period of 1953, and fewer than in most of the like periods of the last 15 years, it has been reported by statisticians of the Metropolitan Life Insurance Company.

This year's half-year total was slightly over 500 deaths. In general, the trend was towards decreases in catastrophic deaths from tornadoes and civilian aviation, railroad, and water transportation accidents; and towards a slight increase in similar deaths in military aviation and in dwelling and apartment fires.

The greatest decreases in catastrophic deaths were in civilian aviation and in tornadoes. Only 21 fatalities were recorded in civilian aviation this year, while last year's toll was 172. The first-half deaths from major tornadoes last year mounted to more than 400; this year there were less than 10. The largest single catastrophe this year was the flood in Southwest Texas which cost 23 lives.

On the Move

More than a third of all home owners are newcomers in their present residences, according to the Consumer Finances Survey of the Federal Reserve Board. This indicates the magnitude of the changes that are being brought about throughout the land by a combination of the building boom, suburbanization, and the innate mobility of the American people.

The figures, gathered early this year, show that 15 per cent of the home owners had lived in their homes less than two years, and that 21 per cent more had occupied their present homes only between two and five years. Of these two groups, about two out of every three were younger families, many of them headed by veterans.

Trees To Be Sold

Harley G. Hook, director of the Indiana Department of Conservation, announces that the Division of Forestry has for sale quantities of evergreen and hardwood tree planting stock.

Six million evergreens and 1,500,000 hardwoods are to be sold in lots of no fewer than 50 of one species. They are to be planted in rural sections outside city or town limits for woodlot, windbreak, erosion control, or forestry purposes only, and are not to be used for landscaping.

Application blanks are available from the Division of Forestry, Indiana Department of Conservation, 311 West Washington, Indianapolis.

Conservation Meeting

Director Harley G. Hook of the Indiana Department of Conservation announces that the annual state conservation meeting will be held on September 11 and 12 at Shades State Park.

Representatives from all 92 counties are expected to attend the meeting sponsored by the Indiana State Conservation Advisory Committee. The subject of discussion will be the legislative process in Indiana as it affects sportsmen.

Consumer Spending, Saving Show Confidence in Outlook

Whatever uncertainty may have been felt by some of the experts, the American people as a whole, by their everyday spending and saving decisions in a year of economic readjustment, have given the nation an outstanding example of calmness and confidence in the outlook.

This confidence has been paralleled in business and industrial circles, where it has been reflected in the maintenance of near peak levels in plant and equipment investment and new records in construction outlays.

Consumer Outlays At Peak

Two of the major results of this steadiness in the public's behavior pattern in the period are:

Total consumer spending has been maintained at record levels. Aggregate personal consumption expenditures were estimated at a seasonally adjusted annual rate of \$231.5 billions for the second quarter of this year by the Council of Economic Advisers. This is the highest quarterly rate on record and, on an annual basis, nearly \$2 billions above the total for 1953. The magnitude of this consumer demand has been providing the economy with a powerful prop while it was undergoing readjustment and laying the foundation for new growth.

At the same time, the people as a whole have kept on adding to their savings in life insurance and other forms of long-term thrift, the bedrock of their personal security, at the highest figure attained in the last eight years. Total accumulated long-term savings of individuals have been growing at an annual rate of approximately \$12 billions this year, duplicating the 1953 performance. The aggregate of such savings at midyear was estimated at around \$212 billions, the equivalent of some \$4,500 for every household in the land.

Two Periods Compared

The consumer spending pattern over the last year is reminiscent of a similar performance in the short-lived recession of 1949. At that time, too, personal consumption expenditures continued to increase while production declined and unemployment rose. What is happening this time is an even more significant demonstration of public confidence since pent-up demand as a result of shortages built-up during World War II was a potent influence on consumer spending attitudes in 1949 and doesn't exist today.

The personal savings record in the present period is much more impressive than the one five years ago. Accumulated long-term savings of individuals increased by only \$7 billions in 1949, or little more than half the current growth in the people's "nest egg." These savings consist of funds accumulated behind life insurance policies, thrift accounts in commercial banks, deposits in mutual savings banks and in Postal Savings, savings capital in savings and loan associations, and current redemption value of U.S. Savings Bonds owned by individuals.

One of the striking characteristics of the post-World War II economic picture was an extraordinary increase in personal debt. This was particularly true of consumer credit, mainly because of installment buying, and of home mortgage debt. Farm mortgage and non-real estate debt have also increased, and so have life insurance policy loans, but on a lesser scale.

The total of these four personal debt classifications is currently estimated at around \$115 billions, or well over three

Nation's Best Sulky Racers Will Perform at State Fair

The nation's finest and fastest sulky racers have been entered in this year's Indiana State Fair Grand Circuit Races with all indications pointing to the most competitive harness outing in the fair's colorful 102-year history.

The impressive list of two and three-year-old pacers and trotters will vie for over \$200,000 in purses during the five-day Grand Circuit schedule to be staged on the famous State Fair one-mile track.

The popular racing events begin Labor Day, Monday, September 6, at 12:30 P.M. (CST), and continue daily through Thursday, September 9.

The fair's spacious grandstand can comfortably seat 10,000 people, and bleacher facilities adjacent to the grandstand can accommodate 5,000 spectators.

Large purse races which have gone down in harness racing history and which again will be featured during this year's Grand Circuit include the famed Horseman Futurity, Fox Stake, and Hoosier Futurity. Richest prize of the five-day running will be the Fox Stake for two-year-old pacers run on Wednesday, September 8. It has an estimated \$32,000 purse.

Ticket prices are: \$3.00, \$2.40, \$1.80, \$1.20, and \$1.00. Write to Ticket Department, Indiana State Fair, Indianapolis 5, Indiana, for reserved seats.

Highway Safety Tips

Traffic accidents are "big business"—they caused an economic loss of more than 121 million dollars in Indiana in both 1952 and 1953.

Violation of some traffic law contributes to virtually every traffic crash.

The Indiana Office of Traffic Safety is proposing that traffic crashes be called "traffic crashes" or "collisions"—not "accidents." It points out that most crashes are *caused*.

For the first time since World War II, Indiana traffic deaths leveled off in 1953. Total last year was 1,276 against 1,277 in 1952.

"While safety requires that you watch the car ahead and the one behind, it is important that you pay attention to the car behind the one ahead and just ahead of the car behind."—Claude Eames, Elkhorn (Wis.) Independent.

Traffic collisions occur one at a time—that's the way they have to be prevented.

In Indiana, it is illegal to post any sticker on your car or truck windshield—other than an official one, the Indiana Office of Traffic Safety points out.

times the comparable total at the end of 1945. However, except for home mortgage debt, where the easing of mortgage terms is apparently playing an important part in continued rapid expansion, the growth in personal debt has slowed down noticeably over the past year.

Traffic increased on Indiana streets and highways from 10½ billion to 17¼ billion miles from 1946 to 1953. Traffic deaths in the same period rose from 889 in 1946 to 1,276 in 1953. Thus the increase in "exposure" was 64% while the rise in deaths was held to 43%, the Indiana Office of Traffic Safety notes.

So. Whitley, R. R. 1

Efficient, safe movement of traffic is the goal of state and local agencies which operate and police the city streets and county and state highways. A greater degree of safety will accrue with each gain in efficient movement, the Indiana Office of Traffic Safety points out.

Ten Indiana cities and two counties of over 10,000 population had no traffic fatalities in 1953. Counties were Decatur and Pulaski; cities were Bedford, Crawfordsville, Frankfort, Goshen, New Albany, New Castle, Peru, Shelbyville, Washington, and West Lafayette.

Crawfordsville (population 12,851) is the only Indiana city over 10,000 which went through four years—1950-1953—without a traffic fatality.

Traffic accidents have taken a toll of more than 1,000 deaths in Indiana in each of the years since 1929 except the year 1932 and the war and postwar period 1943-46. Alltime high year was 1941 when 1,478 met death on Hoosier streets and highways.

Nearly one-fourth of all Indiana traffic fatalities in 1953—314 out of 1,276—occurred when vehicles ran off the roadway.

IN THE MATTER OF THE
SAVAGE ROAD, PERRY TOWNSHIP

A petition having heretofore been filed, for the opening of a highway known as the Savage Road in Perry Township, Vanderburgh County, Indiana, described as follows:

Commencing at a point where the center lines of Bosse and Nolan Avenues intersect as shown by the recorded plat of Evansville Industrial Addition to the City of Evansville in Plat Book G, page 137 in the Recorder's office of said County and thence in an easterly direction across the southeast quarter of Section Thirty-four (34) Township Six (6) south, Range Eleven (11) west, and the southwest quarter of Section Thirty-five (35) said township and range to a point in said last mentioned quarter section at the center of the western end of Koressel Avenue as shown by the Recorded Plat of Lots 1 to 19 inclusive of Block Three (3) Savage Addition to the town of Howell in Plat Book F, page 135 in said Recorder's office; all of which is more particularly described in the survey and plat of the County Surveyor attached hereto and make a part hereof.

Board of Commissioners, Vanderburgh County, Indiana, March 22 1934

And the Board of Commissioners of the County of Vanderburgh, having heretofore appointed viewers and proper notice having been given and said viewers, namely R.W. Meisinger, Edw. Henze and A.E. Scherer having qualified as provided by law and having filed their report of their action herein, which said report is in the words and figures following to-wit:

IN THE MATTER OF THE PETITION OF
JAMES F. SAVAGE et al FOR A NEW
HIGHWAY.

REPORT OF VIEWERS

We, the undersigned, viewers appointed by the Board of Commissioners of Vanderburgh County at the August term, 1926, thereof, to view, mark and lay out a certain proposed new highway as petitioned for by James F. Savage et al, submit the following report: We met as directed in the order hereunto attached and made a part hereof, and after having taken an oath to faithfully discharge the duties assigned us, proceeded to view, and did view, mark and lay out such proposed new highway in the manner as by law prescribed; that the route, bounds, course, distance and termini of said new highway are more particularly described as follows:

Commencing at a point where the center lines of Bosse and Nolan Avenues intersect as shown by the recorded plat of Evansville Industrial Addition to the City of Evansville in plat book G, page 137 in the Recorder's office of said County and thence in an easterly direction across the southeast quarter of Section Thirty-four (34) Township six (6) south, range Eleven (11) west, and the southwest quarter of Section Thirty-five (35) said Township and range to a point in said last mentioned quarter section at the center of the western end of Koressel Avenue as shown by the recorded plat of lots 1 to 19 inclusive of block Three (3) Savage Addition to the town of Howell in plat book F, page 135 in said Recorder's office; all of which is more particularly described in the survey and plat of the County Surveyor attached hereto and made a part hereof.

That the width of said highway, as above laid out, is sixty feet, and that said proposed new highway would be of public utility. We further find that said highway as located by us does not run through any person's enclosure of more than one year's standing without his consent. We further recommend that the County Surveyor make a survey and plat of this road, and that upon his making the same it be attached hereto and made a part of this report.

Dated this 21st day of September, 1926.

(Signed) R. W. Meisinger
Edw. Henze
A. E. Scherer

And the Board being duly advised in the premises and upon the report of said viewers now orders that said highway be established with a right-of-way of not less than sixty (60) feet and the County Surveyor of Vanderburgh County, Indiana, is hereby ordered and directed to make a survey of said highway and plat the same.

Re: Mills Building, Boehne Hospital

Comes now G. H. Bippus, Supervisor, and files report with the Commissioners on the rebuilding of the Mills Building, Boehne Hospital which was destroyed by fire. The Commissioners receive report and order it made a matter of record, as follows:

Evansville, Ind. March 20, 1934

Board of County Commissioners,
Vanderburgh County,
Evansville, Indiana

Gentlemen:

I am pleased to hand you herewith my report on the completion of Childrens' Hospital Building at Boehne Camp, Project #2581.

The total expense for materials, Architect fees and Supervisor fees as well as the cost of labor by C.W.A. are attached hereto.

In reviewing this report the fact should not be overlooked that we now have a fire resisting building throughout, which will no doubt create a cheaper rate of Insurance. Then too more expense was caused by the approximate increase of cost of materials for the following items over and above the old building:

Plumbing	\$1,200.00
Heating	400.00
Tile Walls	2,000.00
Glazed Brick Walls	600.00
Radio, Electrical work and call system	400.00
Addition to kitchen and rear entry	800.00
Roll screens for all windows	200.00
Weather stripping all exterior doors	60.00
Changing 400 ft of sewerage from 4" to 6"	100.00
Cabinets for linens, etc. in nurses' office	150.00
Front entrance of stone	1,000.00
Suite of 2 rooms in basement	150.00

And the complete renovation of entire building which in itself would amount to considerable after six (6) years of tenancy. The rebuilding after agreeing on settlement with Insurance Company and allotment was approved by C.W.A. was started on the 5th day of December, 1933 and as you know was completed and accepted by your Board on the 8th day of March, 1934.

At this time I want to thank you Gentlemen, for the appointment as Supervisor and the confidence you placed in me. Also the splendid cooperation I received from you Board, Mr. Koenemann, Mr. Buente, Dr. Crimm, his Board of Managers and entire staff and last but not least, all the officials of the C.W.A.

I trust you Gentlemen are pleased with the results obtained.

Very truly yours,

WITNESSETH:-

WHEREAS, that, by the provisions of Section 6, Chapter 67, of the Acts of the Special Session of 1932, it is provided that the Sheriff of the County shall be allowed forty (40¢) cents per day for feeding each prisoner, to be paid out of the funds of the County.

WHEREAS, the Attorney General of the State of Indiana has made a ruling and has advised the State Board of Accounts of said State, that, in his opinion, there is now no statutory provision fixing a flat or specific rate to be paid the Sheriffs for feeding prisoners, but that the expense thereof should be borne by the various counties, and that arrangements for the feeding of prisoners are within the jurisdiction of the Board, and such arrangements should be made by said Board and paid for out of the funds of the County.

WHEREAS, the Board finds that the sum of Forty (40%) cents per day for feeding each prisoner is a fair and equitable compensation therefor, for which said sum the Sheriff agrees to feed said prisoners.

Now, it is hereby agreed between the parties hereto that the Sheriff will feed the prisoners imprisoned in the County Jail from time to time, and will furnish all articles of food and all necessary help for such feeding for the sum of forty (40%) cents per day for each prisoner, and the Board agrees to allow and pay out of the funds of the County appropriated therefor such sum.

Re: F.E.R.A. Projects

Comes now W.Mack Saunders and makes request for help on the F.E.R.A. projects received, ~~the same have been referred~~

Hon. Board of County Commissioners,

Gentlemen:

Several of the projects started under the C.W.A. and supervised by me are left unfinished. They have been approved by the F.E.R.A. for completion. These projects are clearing out all the creeks in the County; this project is approved for 1350 men; building lake at Boehne Camp, 26 men; building the Volkman, Baumgart, Bender, Buente, School #6, Hartlein, North St. Joseph Ave. and Boonville and New Harmony Roads.

These projects should be completed for the good of the County, as the creeks if finished will benefit hundreds of farmers by relieving the overflow from rains. The citizens of Vanderburgh County are very anxious to have these projects completed as it is inconveniencing them in their present condition very much.

The Boehne Camp Dam will make a road to connect the two parts of land owned by Boehne Camp, also provide a beautiful lake for the patients and provide water in case of fire. The roads are all connections between main roads and would benefit everybody.

The men are available from the relief rolls and should be put to work where the most good can be done.

Teams will be needed for the roads and Boehne Camp Dam.

Tool dressers and dynamite men will be needed for all projects,

I recommend that the sum of \$10,000 be appropriated by the County for pay of the foremen and timekeepers for these projects, as I understand that the State will not pay any wages except to the people that are on relief. Under the C.W.A. I perfected an organization of competent foremen and timekeepers. If I am to be responsible for the projects signed by me, which I will be, I am asking that a sum of money be appropriated for the cost of supervision, distribution of tools and sharpening and repair of same, so the projects can be finished for the benefit of the whole County.

Yours respectfully,

W.Mack Saunders. "

The above has been referred to the County Attorney for attention.

Re: Recommendations of County Engineer
W. Mack Saunders

"Honorable Board of County Commissioners
Vanderburgh County, Ind.

Gentlemen:

I recommend that a 12" tile be laid to take care of the water from Independence Avenue through the ground of Mr. Porter. This tile should be laid from the ditch at the end of Independence Ave to Bee Slough, a distance of about 250 feet. A catch basin should be built at Independence Ave to start laying tile from. This will take the water under Mr. Porter's ground and satisfy all parties concerned.

Respectfully yours,

W. Mack Saunders
County Surveyor"

"
Gentlemen:

I hereby recommend placing a 5 foot boiler on the road known as South Evans Avenue, in place of a wooden bridge that has failed over Grainger Ditch.

This is a road dedicated to the public off the west side of an unrecorded plat laid off by Hopkins. I find that numerous people use said road and that the expense of the boiler would be as nothing compared to the benefit to the public.

W. Mack Saunders
County Surveyor "

"The Honorable Board of County Commissioners
Vanderburgh County, Ind.

Gentlemen:

The tile drain on the Pfeifer Road from Highway 41 west about 1500 feet is in bad shape and needs relaying- some of the tile are destroyed. The men working at the Air Port will relay the tile if the County will furnish new tile in place of the ones broken. This is a County drain and should be fixed. The cost of tile should not be over \$100.

If this arrangement is made the County will get the drain fixed for about 15% of the cost of the whole job.

Respectfully yours,

W. Mack Saunders
County Surveyor."

On motion the Board of Commissioners approve recommendations and orders the Road Supervisor, N.D. Akin to carry out recommendations of Mack Saunders.

Re: Boehne Dam

"Mr. Harvey Herndon,

Dear Sir:

I wish to be relieved of any responsibility for the construction of the Boehne Camp Dam. The dam was designed and work started on it so that it would hold the lake. Since the teams were taken off, no attempt has been made to build the dam in layers, so that it could be properly compacted. The earth has been wheeled onto the fill and dumped over the side, so that the resulting fill is very loose and porous and utterly unfit for holding back water. The present fill slope has been cut to a one to one whereas it should be not less than a two to one. Moreover, the width of the dam is not sufficient at the top and bottom, which would greatly reduce the retaining power of the dam and make it extremely dangerous to those people living below the dam.

I know that you as well as myself, are extremely anxious to see a lake at Boehne Camp, but certainly not at the risk of possible destruction of private property and perhaps loss of life which would be the result, if this dam should break. I would recommend that the present practice be corrected and the dam built as designed.

(Signed) W. Mack Saunders
County Surveyor

The Commissioners received above request, and referred same to Dr. Crimm, Superintendent of work on Boehne Dam.

Re: County Business at Indianapolis

"County Commissioners,
c/o Pres. Herndon

The County Council on July 6th discussed the relief situation in the County, and in conclusion decided to send two of its members to Indianapolis, to confer with Mr. Book with hopes of obtaining a definite understanding regarding the present system of extending aid and the possibility of establishing a Board to act as arbiters in cases of disputes.

We feel that a step along this line will bring about harmony and thus be a great saving to the taxpayers, therefore we ask your body to consider any expense that might be incurred on this short trip.

Thanking you in advance, I am,

Re: Additional Deputy for County Surveyor

"The Honorable Board of County Commissioners
Vanderburgh County, Indiana.

Gentlemen:

We are at present allotting ditches for cleaning in Armstrong, Scott, German and Knight Townships, in addition to giving stakes on roads being built by F.E.R.A.

The people of Union Township are now asking for their ditches to be staked off. It is a physical impossibility for the crew we now have to take care of this additional township without another crew.

Mr. Schenk has taken care of this work in Union Township for the trustees for several years. For \$90.00 he has been staking the ditches out and seeing that they were cleaned. I would recommend that he be appointed to do this work as it will probably save me asking for another crew.

Respectfully yours,

W.Mack Saunders
County Surveyor"

Re: Equipment for County Sheriff

The following request was received from the County Sheriff, Clyde Hesmer:

"To the Board of Commissioners,
Vanderburgh County.

Gentlemen:

There is to-day a great need for better protection to law enforcement officials. Criminals are generally armed with sub-machine guns and great powers. They generally cruise in high powered cars and with the equipment generally supplied to deputies, the officers are at a great disadvantage.

To remedy this, steel vests and other defense equipment has been investigated. I have just to-day investigated a bullet proof shield made by the Federal Laboratories, Inc. of Pittsburgh, Pa. and I am convinced that it is the most effective defense device on the market. We have immediate need of three of these shields and I respectfully request the purchase by your Board of that number.

Re: Boehne Hospital

The Board of Directors of the Boehne Hospital request additional appropriations for underground cable-

"Board of County Commissioners-

In view of the emergency created by the inability to use the underground cable which conducts electricity to the hospital, it was necessary for the Superintendent and Board of Managers to purchase a new underground cable to conduct current from the main line to the hospital. Approximately \$1,000.00 will be needed to purchase the new cable and have it installed.

#2 - 4 Way Cable was purchased. This cable is a little more expensive than the one generally used, but it was thought advisable to buy this in order to carry sufficient voltage for any future construction.

The Board of Managers therefore, ask that you gentlemen present this matter to the County Council at their next meeting for an appropriation to be made to cover the above expenditure.

Yours very truly,

(Signed) Paul D. Crimm, M.D.

 of Vanderburgh County, Indiana.

Gentlemen:

I am returning to you the attached request of Earl C. Martin and others for construction of drain on Lauer Hill, which request was referred to me for attention and report to you.

If and when such a petition is filed by the required number of property owners in the drainage area and the proceedings in Court have reached the stage where my services will be needed, I shall be glad to co-operate in every way that I possibly can.

Respectfully,

Re: Funeral Prices for Pauper Burials

The County Funeral Directors' Association now presents to the Board of Commissioners, new prices for burial of the poor and aged, which is as follows:

To The Honorable Board Vanderburgh
County Commissioners

Gentlemen:

The funeral directors of Vanderburgh County, to-wit, in compliance with the NRA code have organized the Vanderburgh County Funeral Directors Association, comprising the funeral directors of Vanderburgh County.

In compliance with the code for funeral directors, which prohibits us from doing certain things, we find it necessary to submit new prices for the burial of the Township and County poor. For many years the funeral directors of the County have carried the burden of burying the Township and County poor at a less price than we could afford to bury them for, therefore, at this time, we feel justified in submitting the following prices to take effect November 1, 1934:

\$25.00 up to one year of age
 40.00 One to five years of age
 55.00 Five to ten years of age
 75.00 Ten years and over
 Grave to be furnished you the Township.

Respectfully submitted,
The Vanderburgh County Funeral Directors Association.

Re: Vacation of Certain Streets & Alleys

Come now the viewers for the vacation of a street in Smithland, petitioned by Claude Koehler et al, and file their report as follows:

TO THE HONORABLE BOARD OF COMMISSIONERS
OF VANDERBURGH COUNTY:

We, the undersigned viewers who were appointed by your Honorable Board at your regular October Term 1934, to view proposed streets, roads and alley petitioned for by Claude Koehler et al, have discharged the duties assigned us and submit you the following report, to-wit:

We met as directed in your order, and after being duly qualified by taking oath, proceeded to view said streets, roads and alley proposed to be vacated, which by routes and bounds and course and distance is as follows, to-wit:

"Fulton Avenue as the same is laid out on the east side of block two (2) Smithland; also for the vacation of an unnamed road extending from Fulton Avenue to Fifth Avenue along the north side of block two, Smithland; also for the vacation of a twelve foot alley or road running north and south in the middle of block two (2) Smithland being between Fulton Avenue and Fifth Avenue in said block."

We are of the opinion that said proposed vacation of said streets, roads and alley would be a public utility, and that there is now no use being made of said road and alley, and that same should be vacated, except as to easements.

IN THE MATTER OF THE PETITION OF
CLAUDE KOEHLER et al, FOR THE VACATION
OF CERTAIN ROADS AND STREETS IN VAN-
DERBURGH COUNTY, INDIANA

Come now the petitioners in the above entitled cause by Emra H. Ireland, their attorney, and show to the Board that a petition was heretofore filed in the above entitled matter and was endorsed by the Auditor of Vanderburgh County, Indiana, and set for hearing on the 27th day of September, 1934.

Petitioners further show that said petition is signed by twelve free holders of the County, six of whom reside in the immediate neighborhood of the streets and highways proposed to be vacated; that said Auditor caused a notice of the hearing of said petition to be published once each week for two consecutive weeks in the Evansville Courier and Evansville Journal, newspapers of general circulation printed and published in Vanderburgh County, Indiana, being the two leading newspapers representing the two political parties casting the highest number of votes at the last preceding general election in said County, which said notices state the time, place and date on which this petition would be heard by the Board of County Commissioners and also notified any parties interested that they might appear and show cause why said petition should not be granted, and said notice contained a description of the streets and highways to be vacated, and that proof of publication of said notices are now on file in the office of the Auditor of Vanderburgh County, Indiana.

And now the Board of Commissioners of said County of Vanderburgh, being duly advised in the premises, finds that said petition is signed by more than twelve free holders of the County and that more than six of said signers reside in the immediate neighborhood of the streets and highways described in said petition, and that notice of the pendency of the petition has been given as required by law.

And the Board further finds that said notice and said petition are in due form and sufficient in all respects and now approved the same and finds and determines that three disinterested free holders of the County should be named to view said roads and streets, and the Board of Commissioners now appoints three disinterested free holders of the County to view said streets and roads, and now said viewers report to the Board of County Commissioners that said streets and roads described in said petition should be vacated.

The Board of Commissioners finds that the petition of said petitioners should be sustained and that said streets and roads described in said petition should be vacated.

It is therefore ordered, adjudged and decreed by said Board of Commissioners that the streets and roads described in the petition, to-wit:

Fulton Avenue as the same is laid out on the east side of block two (2) Smithland; also an unnamed road extending from Fulton Avenue to Fifth Avenue along the north side of block two (2) Smithland; also a twelve foot alley or road running north and south in the middle of block two (2) Smithland between Fulton Avenue and Fifth Avenue in said blocks, all in Vanderburgh County, Indiana,

be and they are vacated.

Re: Contract on Equipment for Boehne Hospital

The Board received recommendations from Dr. Paul D. Crimm, Supt of Boehne Hospital, as follows:

"Board of County Commissioners,
Vanderburgh County,
Evansville, Indiana. Attention: Mr. Edw. D. Koenemann

Dear Mr. Koenemann:

The two bids on the Gas Baking Oven and Gas Cooking Range have been studied.

We recommend the purchase of these two items from the Advance Stove Works, Evansville, Indiana. We feel that the Robertshaw Thermostat Heat Controls in this bidder's Stove make any additional cost justifiable. The Advance Stove Works' bid on the Gas Baking Oven is less.

The shipping weight on the Boetticher & Kellogg's Gas Cooking Range is 50 lbs. underweight according to specifications. Here again it is justifiable to purchase both Stoves from the Advance Stove Works.

Yours very truly,

December 3, 1934.

On motion the Board accepts recommendations of Dr. Crimm and awards contract for Range and Oven to the Advance Stove Works for . . . \$462.98

IN THE MATTER OF FORECLOSURE
OF A MORTGAGE AGAINST REAL ESTATE
OWNED BY MINNIE LAWLER.

To the Board of Commissioners of the
County of Vanderburgh.

Gentlemen:

In July of this year your Board referred to me the matter of the collection and possible foreclosure of a mortgage for One Thousand Two Hundred (\$1200.00) Dollars against real estate in Washington County, Indiana, owned by Minnie Lawler, who was a former patient at Boehne Tuberculosis Hospital.

Since this matter was referred to me it developed that in addition to the above obligation there was a promisory note given by this same person for One Hundred Sixty-six (\$166.00) Dollars, making total due of One Thousand Three Hundred Sixty-six (\$1366.00) Dollars.

I have been negotiating for the collection of the above two items and had worked out a proposition by which we were attempting to procure a Home Owners' Loan and have the Hospital accept bonds, but the loan was rejected. After considerable negotiations thereafter the Hospital Board agreed to a ten (10%) per cent deduction if collection could be effected and under this arrangement, I have finally procured a settlement, under which remittance was received for One Thousand Two Hundred Twenty-nine and 40/100 (\$1229.40) Dollars, less one and 20/100 (\$1.20) Dollars exchange charge, making net remittance of One Thousand Two Hundred Twenty-eight and 20/100 (\$1228.20) Dollars, which has been turned over to the County Auditor.

Board of Commissioners, Vanderburgh County, Indiana, December 3 1934

Inasmuch as this item is not included in the services contemplated under my contract and as the regular collection fee would apply of Fifteen (15%) per cent on mortgage collections, amounting to One Hundred Eighty-four and 23/100 (\$184.23) Dollars. If the Board can see their way clear to make an allowance of One Hundred Fifty (\$150.00) Dollars, I would be glad to accept that amount in settlement for my services.

Respectfully yours,

(Signed) Henry Buente

OF THE COUNTY OF VANDERBURGH

IN THE MATTER OF THE APPLICATION OF)
 SOUTHERN INDIANA GAS AND ELECTRIC)

Comes now Southern Indiana Gas & Electric Company, by its representatives, and presents to the Board its application for permit to lay gas mains upon certain highways located in Knight Township, Vanderburgh County, Indiana, which application is in the words and figures following, to-wit:

"We, hereby, apply for a permit to lay approximately 6,000 feet of 6" Gas main to Taylor Ave. from Gilbert Ave. to Lodge Ave., thence on Lodge Ave. South to Albion Ave.

This work is being done to increase pressure condition in the Southeast part of the City.

Re: Probation Department

To the Honorable Board of County Commissioners of Vanderburgh County, Indiana:

We, the undersigned, respectively Judges of the Superior Court of Vanderburgh County and of the Vanderburgh Circuit Court, respectfully request your Honorable Board to order appropriated from the Indispensable Public Necessity Fund the sum of Four Hundred Dollars (\$400.00) the same to cover an appropriation of Two Hundred Dollars (\$200.00) for Superior Court and Two Hundred Dollars (\$200.00) for Circuit Court, for the services of a probation officer in and for each of said Courts for the months of January and February, 1935.

This request is made necessary by reason of the fact that the probation department of the city of Evansville is being terminated as of December 31, 1934, thereby leaving without redress more than six hundred domestic relations cases now being actively handled through said office, which persons have no place to apply except to the Courts of Vanderburgh County. We feel that an indispensable public necessity exists in view of the emergency hereinabove set forth, and feel that it can be met only by a consolidation of all probation offices both in the city and county under one head. This request is made for the period of sixty days for the reason that we believe and have information on which to base our belief, that the General Assembly of Indiana at its next session will remedy this situation.

We have been informed by the officials of the incoming administration of the City of Evansville that such City will appropriate as additional compensation for such probation officers as city probation officers, the sum of Two Hundred Dollars for the months of January and February, 1935.

The Judges of the respective Courts have long felt the need of probation facilities in criminal and domestic relations cases handled in their Courts.

We sincerely believe that child guidance and probation work is the cheapest investment for future citizenship.

Very respectfully yours,

Re: Vacation of Schaeffer Avenue

In the matter of the petition of Harold E. Klammer, et al for vacation of a part of a Highway.

Comes now John Ellerbush, Louis Christman and Henry Egli heretofore appointed by the Board to view, mark, and lay out a portion of a street sought to be vacated in Perry Township, Vanderburgh County, Indiana and file and present to the Board their report herein, which said report is in words and figures as follows, to-wit:

REPORT OF VIEWERS

In the Matter of the petition of Harold E. Klammer, et al. for Vacation of a part of a highway.

"We, the undersigned viewers appointed by the Board of Commissioners of the County of Vanderburgh and State of Indiana at its December Term, 1934 thereof, to view, mark and lay out part of a certain highway to be vacated as petitioned by Harold E. Klammer and others, submit the following report:

"We met as directed, in the Order hereto attached, and made a part hereof, and after having taken an oath to faithfully discharge the duties assigned to us proceeded to view and did view, mark and lay out such part of the highway or street proposed to be vacated in the manner as by law prescribed; that the route, bounds, crossings, distance, and termini of said street or highway proposed to be vacated are more particularly described as follows:-- A part of a highway in Perry Township, Vanderburgh County, Indiana, being part of a street commonly known as Schaeffer Avenue, adjoining Lots One (1), Two (2), Three (3), Four (4), Five (5), Six (6), Seven (7), Eight (8), Nine (9) in Block Fifty-two (52) and Lots Sixteen (16), Seventeen (17), Eighteen (18), Nineteen (19), Twenty (20), Twenty-One (21), Twenty-two (22) in Block Fifty-four (54), all in Evansville Industrial Addition and extending between said lots which are on opposite sides of the street proposed to be vacated and more particularly described as follows:

Commencing at a point at the Southeast corner of Lot 9 in Block 52, Evansville Industrial Addition, extending thence West along the South line of lots 9, 8, 7, 6, 5, 4, 3, 2, 1, in Block 52, thence at right angles South across Schaeffer Avenue to the Northwest corner of lot 16 in block 54, thence along the North line of lots 16, 17, 18, 19, 20, 21 and 22 of block 54 of said Evansville Industrial Addition, to the Northeast corner of lot 22, thence North to the place of beginning.

"We report that the land above described and sought to be vacated is not correctly placed on the plat of the Subdivision of Evansville Industrial Addition, in reference to its location in connection with Red Bank Road, and it is actually located in a hollow with trees thereon; that it is not used as a roadway; that it is not now distinguishable as a road or boulevard and is of no public utility and that no reason exists for it to remain as shown as an Avenue upon the maps of the Subdivision wherein same is located; that it adjoins the lands of the petitioner, Harold E. Klammer and no other person and that your viewers believe it would be a public utility to vacate the same.

(Signed) JOHN ELLERBUSH

LOUIS CHRISTMAN

HENRY EGLI
Viewers

W. MACK SAUNDERS
County Surveyor "

And the Board having examined said report and having heard the evidence and being sufficiently advised in the premises finds that said report ought to be approved.

It is therefore ordered and adjudged by the Board that the strip of ground as marked and paid out by the viewers in their report as hereinabove set forth, that is to say, the following described real estate to-wit:-- Part of a street commonly known as Schaeffer Avenue, adjoining Lots One (1), Two (2), Three (3), Four (4), Five (5), Six (6), Seven (7), Eight (8), Nine (9) in Block Fifty-two (52) and lots Sixteen (16), Seventeen (17), Eighteen (18) Nineteen (19), Twenty (20), Twenty-one (21), Twenty-two (22), in Block Fifty-four (54), all in Evansville Industrial Addition and extending between said lots which are on opposite sides of the street proposed to be vacated and more particularly described as follows:

Commencing at a point at the southeast corner of lot 9 in block 52, Evansville Industrial Addition, extending thence west along the south line of lots 9, 8, 7, 6, 5, 4, 3, 2, 1, in block 52, thence at right angles south across Schaeffer Avenue to the northwest corner of lot 16 in block 54, thence along the north line of lots 16, 17, 18, 19, 20, 21 and 22 of block 54 of said Evansville Industrial Addition, to the northeast corner of lot 22, thence north to the place of beginning.

be and the same is hereby vacated as a public highway or boulevard; that the same adjoins the lands of Harold E. Klammer and no other person and that said vacated portion of said highway will and does hereby revert to the owner or owners of the lots adjoining as part of the lots adjoining the same; and the Auditor of the County is hereby directed to submit a copy of this Order to the said Trustee of Perry Township, Vanderburgh County, Indiana.
