Regarding: Potential Logjam

Dear Property Owners,

It has come to our attention by officials of Warrick County and certain property owners in the area that there may be located a log jam on your property located in the NE of NE of Section 6, Township 6S, Range 9W with a tax parcel number of 82-07-06-006-001-026. This office has not been on site to confirm the existence of the logjam. Adjoining landowners are concerned that the log jam is causing flooding and delaying planting of crops as a result of water being partially impounded on Pigeon Creek on your property.

I am asking that you check to see if this is the case. If a log jam is present, I would encourage you to begin discussions with appropriate personnel to begin the process of removal of the log jam to prevent damage to other property. I, as well as personnel from the Warrick County Surveyors Office, would be happy to meet you onsite at your convenience to review the situation.

Respectfully yours

A handwritten signature in black ink, appearing to read "Jeffrey D. Mueller".
